(Cover Sheet)

SECTION 1: OVERVIEW

PURPOSE 1.0

The North Central Texas Council of Governments ("NCTCOG") seeks an experienced vendor or vendors to provide the goods or services described herein to the members of its TXShare Cooperative Purchasing Program ("TXShare"). The awarded contracts will be promoted via TXShare. The purpose of this Request for Proposals is to solicit responses that result in a contract with one or more vendor(s) that are qualified to provide one or more categories of the goods or services.

The desired service categories are as listed below:

- Service Category #1: Earthen Materials
- Service Category #2: Asphalt Materials
- Service Category #3: Concrete Materials
- Service Category #4: Winterization Materials
- Service Category #5: Additional Offerings of Ancillary Materials

1.0.1 Definitions:

- "RFP" or "solicitation" – this Request for Proposals document;
- "Vendor" - interested business;
- "You" or "Offeror" - vendor responding with a proposal;
- "Contractor" – Offeror awarded a contract;
- "Governmental Entity" – a government agency or non-profit organization;
- "Customer" – a governmental entity.

1.0.2 Outcome

The desired outcome of this RFP is for NCTCOG to enter into a Master Services Agreement ("MSA") with one or more Contractors to supply municipalities, counties, school districts and other governmental agencies ("Customer", "Government Entity") with assistance to obtain the described services from fully licensed vendors authorized to do business in the locations selected on Exhibit 3.

The North Central Texas Council of Governments intends to award Contracts through its TXShare purchasing cooperative to multiple Contractors. Members of TXShare ("Customer" or "Member") will have the option to utilize these contracts to fulfill their needs. The contract award does not guarantee any specific number of sales to any firm awarded under this contract. The goods or services will be provided on an as needed basis. There are no scheduled orders at this time, but there is the expectation that needs will arise among the various Customers of the TXShare cooperative. Vendors awarded contracts will be uniquely positioned to market their products to the Customers. Each Customer will negotiate their own orders on an as needed basis.

SECTION 2: TXSHARE COOPERATIVE PURCHASING PROGRAM

BENEFITS OF A COOPERATIVE PURCHASING PROGRAM 2.0

2.0.1 How Does a Cooperative Purchasing Program Work?

A government cooperative purchasing program, such as TXShare, is a cooperative arrangement for acquiring goods or services that involves aggregating the demand of two or more government agencies to obtain a more economical purchase.

Government entities (cities, counties, water districts, school districts, etc.) sign up as members to use cooperative purchasing programs through a cooperative purchasing agreement. Additionally, non-profit organizations are allowed to sign up as members.

2.0.2 How Does a Government Entity Benefit?

Cooperatives help government agencies find the right goods and services that best fits their need and expedite purchases without requiring additional solicitations (RFP or IFB) to comply with laws and regulations.

TXShare uses the North Central Texas Council of Governments ("NCTCOG") as the lead public entity to publicly solicit and award contracts through a Request for Proposal ("RFP") process. TXShare members are eligible to access these contracts by signing an intergovernmental agreement with the NCTCOG, thereby eliminating the need to complete their own RFP process.

Membership in the TXShare cooperative purchasing program provides the agencies with access to contracts for goods and services at pre-negotiated rates or prices. Typically, the entity member then purchases the goods or services by negotiating with the cooperative's awarded vendors and places purchase orders, or enters into sub-agreements, based on the rates or prices listed in the cooperative purchasing program's contracts.

2.0.2 How Does A Vendor Benefit?

A Request for Proposal (RFP) such as this one is a document that competitively solicit bids from potential vendors for goods or services. The lead public entity (NCTCOG) is an independent government entity that carries out the advertising and bid procedures required by state law.

All of TXShare's contracts are competitively bid and publicly awarded through this process. NCTCOG prepares the RFP incorporating the required cooperative purchasing language that allows its entity members across the nation to utilize the awarded contract(s).

Vendors respond to the RFP by submitting their proposals. NCTCOG evaluates the responses and awards a Master Services Agreement for the TXShare cooperative, thus establishing the availability for nationwide use of the resulting contracts.

Vendors who successfully compete in the RFP process and are awarded a contract will market to any public entity or non-profit and can then forgo the RFP process for an individual entity.

When marketing to a customer, the awarded vendor can provide a quote to the customer for its unique needs based on the pricing, terms and conditions of its contracts. For a vendor, being awarded a cooperative contract can help shorten the sales cycles considerably. This is especially beneficial for smaller firms, like startups, that may not otherwise be able to access the government market.

2.0.3 Mutual Benefits

Performing a competitive bidding process typically takes often in excess of 90 days to create the RFP solicitation, collect and evaluate proposals, then negotiate and award the contract. Reducing the amount of time that purchasing staff spend managing new solicitations and generating new contracts, especially for goods or services that don't require too much customization, saves months of administrative time and effort. Reducing the need to respond to every bid process and market directly to the customer saves time and money as well as is an "ace in the hole" for a vendor when closing the sale on its goods or services covered by a cooperative contract. Smaller government customers can achieve price-saving advantages from purchasing off a cooperative program with greater purchasing power.

Note: There is no obligation on the part of any Customer to purchase goods or services through the awarded contracts nor is there any guarantee, implied or otherwise, that the awarded contractor(s) will make any sales based on this solicitation.

NCTCOG OVERVIEW

2.1

The North Central Texas Council of Governments is a voluntary association of, by, and for local governments and was established to assist local governments in planning for common needs, cooperating for mutual benefit and coordinating for sound regional development.

NCTCOG serves a 16-entity metropolitan region surrounding the cities of Dallas and Fort Worth. Currently the Council has 236 members, including 16 counties, 168 cities, 23 independent school districts, and 29 special districts. The area of the region is approximately 12,800 square miles, which is larger than nine states, and the population of the region is over 7.0 million, which is larger than 30 states.

NCTCOG's governing structure is as follows: each member government appoints a voting representative from their governing body. These voting representatives make up the General Assembly, which annually elects a 17-member Executive Board. The Board also includes one ex-officio non-voting member of the legislature. The Executive Board is supported by policy development, technical advisory, and study committees, as well as a professional staff.

TXSHARE PROGRAM EXPLANATION

NCTCOG intends to make the contract awarded from this solicitation available to other public entities through TXShare. By promoting their TXShare contract(s) to public entities, contractors reduce the need to repeatedly respond to public customer bids or requests for proposals. The contractor then realizes substantial efficiencies that will increase sales opportunities. Contractors agree to pay an administrative fee to TXShare calculated as a percentage of sales processed through the TXShare contracts awarded and held by the contractor. This administrative fee is not an added cost to be invoiced by the contractor to TXShare participants. This administrative fee covers the costs of contract marketing and facilitation incurred by TXShare.

Under the TXShare program, any public customer or non-profit can use the TXShare contract and its selected contractor(s) to make purchases necessary to pursue their own needs. Offerors awarded a contract under the TXShare program may offer their services nationwide if they desire to do so. The TXShare contract offers a unique advertising advantage to a contractor to promote its services, as the contract satisfies most public entities' procurement requirements.

CONTRACT MANAGEMENT AND REPORTING

The contractor will be required to track and report to NCTCOG its TXShare sales activities relating to the master contract. The contractor will be required to provide management reports on a quarterly basis. Examples of management report data include, but are not limited to:

- Participating public customer's name; pricing option chosen; total fee charged. NCTCOG and contractor will agree to form and content of reports after award of contract.

ADMINISTRATIVE FEE

TXShare will collect an administrative fee, in the form of a percentage of sales, that will apply to all sales between the contractor and public entities using the cooperative program awarded contract. NCTCOG is included as a public entity customer as it may also make purchases through the contract. The administrative fee will be remitted by the contractor to NCTCOG on a quarterly basis, along with required quarterly reporting. The administration fee for this program will be 2% of sales.

INTERLOCAL AGREEMENT

Governmental entities are extended the opportunity to purchase from contracts awarded by the NCTCOG TXShare purchasing cooperative by virtue of an interlocal agreement between the entity and NCTCOG. However, all parties understand, and all parties hereby expressly agree, that the NCTCOG is not an agent of, partner to or representative of those government entities and that NCTCOG is not obligated or liable for any action or debts that arise out of the government customer's purchase.

CONTRACT INTENT

NCTCOG intends to contract with one or more qualified Offeror(s) based upon the qualifications of the Offeror and the categories of goods or services they are able to provide. However, NCTCOG anticipates exploring any viable alternative for providing these goods or services and may decide, after reviewing the proposals submitted, to reject all proposals and not to enter into any agreement.

Vendor and their subcontractor(s) shall also follow all traffic laws. Substantiated reports of speeding, reckless driving, substandard delivery equipment, etc., may be cause for contract termination should the problems not be corrected.

4.0.1.9 Subcontracting: Vendor shall state names of all subcontractors and the type of work they will be performing. If a Vendor fails to specify a subcontractor, then Vendor shall be deemed to have agreed that it is fully qualified to perform the contract, and that the Vendor will fully perform the contract itself.

The successful Vendor further agrees that Customer and its agents, servants and employees shall not be liable for any loss or damage resulting from personal injury, physical loss, harassment of or discrimination against employee or other violations of the provisions of this contract occasioned by the acts or omissions of the successful Vendor's subcontractors, their agents, or employees. No payments will be made on invoices not listing the proper Purchase Order number and not having a legible signature of the Customer receiving party on all deliveries and/or pick up tickets being invoiced.

4.0.1.11 You are encouraged to offer more than one plant site on your worksheet. The awarded contracts are intended to provide as much geographic coverage for as many customers as possible. The awarded contracts may be used by any government agency in the United States, so appropriate plant sites are encouraged. If you have multiple plant sites in various locations, please list all plant sites and the applicable discount and hauling rates that you wish to have covered under a contract. The number of sites is not limited and may be in every region of every state that you do business in, if the location is identified on the BID PRICE WORKSHEET. Additional columns and or pages may be used to incorporate your multiple plant sites on the WORKSHEET.

4.1 OTHER REQUIREMENTS

4.1.1 Objectives.
The Master Agreement awarded for TXShare may cover a variety of services. Each Customer that selects to utilize the Master Agreement will negotiate the specific services it needs into a Supplemental Agreement or purchase order) with a customized SOW for that Customer. All quotes for supplemental agreements must be made based on, and either meet or exceed, the pricing and specifications contained herein.

4.1.2 Service Area.
In preparing a proposal, you will designate what geographic region(s) will be served. You must specify, on the service area designation forms included with their proposal, the service areas that they are willing and able to provide goods and services to. A vendor does not have to propose to service the entire State of Texas, nor must propose to service all fifty (50) states, to be considered for an award of a TXShare contract. Service area designation forms are found in Exhibit 3.

4.1.3 Service Category Offer.
You should prepare a proposal that describes in detail the goods or services that you are proposing to provide. Proposals must demonstrate your capability to provide all or part of the requested services. A

proposal will be evaluated only for the services it proposes.

CONTRACT TYPE

4.2

If awarded, your proposal will result in a fixed price contract based on submitted pricing you propose. It is at your discretion to propose either unit pricing or a percentage discount off the list price for the goods or services you wish to offer. It is generally recommended that you propose a discount, however.

By signing this proposal, you certify that you have obtained and will continue to maintain during the entire term of this contract, all permits, approvals, or licenses, necessary for lawful performance of its obligations under this contract.

CONTRACT TERM

4.3

A contract resulting from this RFP shall be effective for 24 months from the date of award. This contract will automatically renew for up to three (3) additional one-year periods, not to exceed five (5) years in total, unless earlier terminated as provided herein. NCTCOG reserves the right not to renew at its discretion.

WARRANTY/GUARANTEE

4.4

Please state in your proposal what warranty or guarantee may apply to the goods or services you are proposing.

DELETED

4.5

QUALITY

4.6

It is expected that you have knowledge of all applicable industry standards, laws, and regulations and possess an ability to market and distribute the goods or services to members of the cooperative.

4.6.1 Safety Requirements.

All items proposed must comply with current applicable safety or regulatory standards or codes.

4.6.2 Deviation from Industry Standard.

Deviations from industry standards must be identified with an explanation of how the equipment, goods, and services will provide equivalent function, coverage, performance, and/or related services.

NEW GOODS AND SERVICES

4.7

New goods and services may be added to the resulting contract(s) during the term of the contract by written amendment, to the extent that those goods or services are within the scope of this RFP and include, but will not be limited to, new services added to the manufacturer's list offerings, and services which reflect new technology and improved functionality. Service Categories or individual items of a fixed price nature are subject to review and approval of the NCTCOG before addition to the contract. Individual items added to catalog awards do not require prior approval of the NCTCOG.

ALL OR NOTHING AWARD

4.8

"All or nothing" proposals are not acceptable and will be rejected. You must be willing to accept a partial award for any combination of the Categories proposed at the discretion of the NCTCOG.

The NCTCOG may award contracts to multiple Offerors supplying comparable goods or services, also known as a multiple award schedule, or award the contract to a single vendor. The NCTCOG's decision to make multiple awards or a single award will be based upon its sole discretion regarding the type of award that provides best value.

PRICING

4.9

When preparing your proposal, you are to offer a percent discount off of list price for each item you wish to provide. You are to state "No Bid" for any Categories or category items you will not offer. NCTCOG will consider Categories individually and may make awards on each Category independently. NCTCOG reserves the right to select the proposal or proposals offering the most advantageous combination, with discount and other evaluation criteria considered.

NOTE: The final negotiated discount will be incorporated into the Master Services Agreement with the awarded vendor(s). The discount information provided in your proposal will be public information and will not be accepted marked as proprietary or confidential.

4.9.1 Category Discount: Offerors are requested to submit a proposal that identifies the categories and items within each category you wish to offer. A minimum percentage discount is to be stated for each Category or item on the BID PRICE WORKSHEET. This is commonly referred to as "discount pricing". You may be creative in the percentage tier discounts to the extent deemed appropriate.

A discount percentage off of list is considered to be a minimum discount, so the awarded Contractor is free to offer greater percentage discounts to a Customer as part of a purchase negotiation. A zero-discount proposal is acceptable but may put the Contractor at a disadvantage when the Customer is comparing prices among competing Contractors. The Contractor may increase the minimum discount percentage to be more competitive in a particular situation.

Any goods or services that are not specifically listed in the awarded Category catalog are ineligible to be sold under the contract except under Category "Optional Ancillary Goods and Services". These "goods or services not specifically listed" items, which are priced at a discount off of list price, may be only sold in companion with other goods and services specifically stated in the catalog under one of the other Categories. Goods or services that are listed under any Category, including Optional Ancillary Goods and Services, may be sold as stand-alone items.

Note: As previously stated, percentage discounts from list price are allowed but a markup percentage from cost is not, as this method is not allowable for purchases made via Federal grant money. Prices stated as a markup from cost are a cause for disqualification of those portions of your proposal.

Note: You may stipulate different discounts off different products or types of service (subcategories) within each Category, provided you clearly indicate how the different discounts apply to which goods or service subcategories.

4.9.2 General Proposal Information

You must clearly identify which Category your pricing submittal applies to.

You have the option (but are not required) to propose ancillary optional goods or services. Examples are similar product lines, inside delivery, set up, installation, maintenance agreements, travel costs, and other similar goods and services that are not specifically covered by any of the other Category listed in the BID PRICE WORKSHEET. Please provide adequate information explaining what the ancillary good or service consists of.

- For example, if you propose a discount off list, then your current list price card for the items proposed must be made available to the customer so that the customer can calculate the contract price. Such would mean if you were proposing "10% discount off list price of tables", then you must provide on your quote the current list price for tables offered under the contract.

4.9.3 Exhibit 1 Price List – All bidders must complete the BID PRICE WORKSHEET that accompanies Exhibit 1 and indicate which categories they are offering in their proposal. In addition, the bidder is required to provide a current price list with Exhibit 1. If you are offering an "Other Ancillary Good or Service", you must list those goods and services under this Category in order for the goods or services to be considered for award. Failure to clearly complete the required information may result in disqualification of the proposal.

4.9.4 Market Basket - For Evaluation Purposes Only (If Required). You are asked to fill out and return with your proposal a copy of the *Sample Market Basket Pricing Form*, included as Exhibit 2 in this RFP package. This item is used to score the proposal for the Proposal Pricing criterion.

Note that not all RFPs will have a Market Basket Exhibit included.

4.9.5 Sales Tax & Freight. Do not include sales tax in proposal pricing. Nearly all Customers will be tax exempt. Freight/shipping cost should be addressed in the BID PRICE WORKSHEET. There is full flexibility on the vendor's behalf as to whether these costs are included in the price, or an additional charge to be determined at the time of the negotiation between the Contractor and Customer. However, this must be stated up front at the time of the submission of the proposal. Failure to state the method in the proposal will result in a default assumption of "additional charge" for freight/shipping costs when evaluating the proposal.

SECTION 5: EVALUATION AND AWARD

5.0 TIME FOR EVALUATION Unless stated otherwise elsewhere in this RFP, all proposals submitted shall remain valid for a minimum of ninety (90) calendar days after the proposal due date to allow adequate time for evaluation and award.

5.1 EVALUATION PROCESS All submissions in response to this solicitation will be evaluated in a manner consistent with the applicable NCTCOG rules and policies.

First, all nonresponsive proposals (those not conforming to the solicitation requirements) will be eliminated. A proposal review committee will be assembled to perform the evaluations of the remaining responsive proposals. In the initial phase of the evaluation process, the evaluation committee will review all responsive proposals received. You bear sole responsibility for submitting all requested information in the proposal. NCTCOG reserves the right to disqualify any proposal that includes significant deviations or exceptions to the terms, conditions, and/or specifications of this solicitation.

5.2 BAFO AND CLARIFICATION REQUESTS Once proposals have been submitted, the evaluation committee reviews the proposals and determines which of those are determined to be reasonably qualified for award. Those so determined will be evaluated and scored.

Discussions may be conducted with Offerors who submit proposals that are determined to be reasonably qualified for the award of the contract. To obtain the best and final offers ("BAFO") for those reasonably qualified, revisions may be permitted after submission of the proposals and before the final decision is made to award a contract.

NCTCOG reserves the right to be the sole judge as to the overall acceptability of any submission or to judge the individual merits of specific provisions within competing offers.

5.3 ORAL PRESENTATIONS NCTCOG reserves the right to require a presentation by the firm to supplement their written submission. These presentations will be scheduled, if required, after proposals are received and prior to the award of the Contract.

5.4 AWARD OF THE CONTRACT Upon completion of the evaluation process, NCTCOG may award the contracts to one or more Offeror(s) whose submission is determined to be the most advantageous to NCTCOG.

5.5 PROPOSAL EVALUATION CRITERIA

The criteria to be used to evaluate submissions are as follows:

Criteria Factors	Proposal Section	Description	Points
Capacity To Deliver	Tab A	Points will be awarded for response to this section.	45
Proposal Pricing	Tab B	Points will be awarded based upon responses to Tab E.	50
HUB Status	Attachment IX	Additional score will be awarded in this section to Historically Underutilized Businesses Enterprises (HUB).	5

SECTION 6: GENERAL TERMS AND CONDITIONS

6.0 SALES TAX

NCTCOG is exempt from Texas limited sales, federal excise and use tax, and does not pay tax on purchase, rental, or lease of tangible personal property for the organization's use. A tax exemption certificate will be issued upon request.

DOMESTIC PREFERENCE FOR PROCUREMENTS

As appropriate and to the extent consistent with law, the PROVIDER should, to the greatest extent practicable, provide a preference for the purchase, acquisition, or use of goods, products, or materials produced in the United States (including but not limited to iron, aluminum, steel, cement, and other manufactured products). Consistent with §200.322, the following items shall be defined as: "Produced in the United States" means, for iron and steel products, that all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States. "Manufactured products" means items and construction materials composed in whole or in part of non-ferrous metals such as aluminum; plastics and polymer-based products such as polyvinyl chloride pipe; aggregates such as concrete; glass, including optical fiber; and lumber.

Proposers shall certify its compliance with these requirements as part of their proposal response by completing the certifications included with the RFP document "Attachments" section. Failure to submit the required certification statement may be grounds for finding the proposal nonresponsive.

6.2 CONDITIONS

6.2.1 A response to this solicitation does not commit NCTCOG to a purchase contract, or to pay any costs incurred in the preparation of such response.

6.2.2 Unless you specify in the proposal, NCTCOG may award the contract for any goods or services or group of goods or services in the solicitation and may increase or decrease the quantity specified.

6.2.3 NCTCOG reserves the right to hold and accept any proposals received by the submission deadline for a period of ninety (90) days after the deadline if a determination has not been made for an award.
