Tab D Technical Proposal

- 1. Authentic Promoitons.com can provide imprinted promotional products, printed promotional marketing material and all other types of promotional material. We can also provide banners. We can help with print design.
- 2. We can accept file as .jpg, pdf., .ai. or .eps. For standard files .pdf is preferred. For artwork, true vector artwork is best in .ai or .eps format if this is available.
- 3. Once a quote is requested, Amy Warner, the sales representative will e-mail a quote over to customer. Any questions she may have for imprinting will be discussed at time of quoting, to make sure the quote includes the correct decoration method of the promotional item.
- 4. Authentic Promotions.com offers three convenient ways of placing an order. Orders can be placed via fax, email or by visiting our website at www.authenticpromotions.com.

Authentic Promotions.com has established procedures in place to guarantee that each order placed arrives to our customer correct and on time. We recommend suppliers to our customers that we have established relationships with throughout the years. This ensures the product ordered is of good quality and when delivered, it will have the quality imprinting required. Lastly, using suppliers with established prior relationships makes it easier to correct challenges should they occur.

Once our client has decided on the product they want, and the color and imprint information, the following steps are taken:

- Artwork is verified to be in the correct format. If for some reason our client doesn't have the proper format, we have a graphics department that can recreate the artwork.
- An order acknowledgment is sent on each order to the customer along with the proof. This allows the customer to review the details of the order before the order is placed.
- The supplier then provides an official proof for each order that is included with the acknowledgment.
- The proof identifies item color, imprint color, and logo placement.
- We review the proof first to make sure all details match prior to sending the proof.
- Only after we have approval from the customer, do we send approval to production. Any art edits can be made at that time. If approved, we get a ship date for the order.
- Once the order ships, we track the order until the product is delivered to our customer.

All of the above steps are taken with every order and help guarantee an error-free delivery.

- 5. Most of the files we work with we can share via e-mail. If a file is to large to be e-mailed then we can use Dropbox or a Fileshare program to get the larger file to and from customer.
- 6. If there is a complaint that is made, we will address the complaint and find a solution that best works with the customer.
- 7. If a revision is requested on a proof, then we make the requested revision and a new proof is sent. We don't put an order into production until the final proof is approved.
