RE: Gunshot Detection System (RFP# 2025-003)

To Whom It May Concern:

Thank you for the opportunity to bid on the above RFP. Climatec (a division of Bosch) delivers world class security solutions. Bosch's Gun Detection System, a CES 2024 honoree, blends video and audio AI for proactive security, offering a cost-effective approach with minimal invasion.

This dual-layered system swiftly detects individuals brandishing guns through visual cues and identifies gunshots with audio AI, ensuring a prompt and appropriate response. The system functions independently but seamlessly integrates with other [security systems](#), including video, access control, and public address. This integration allows for diverse responses such as human verification, door locking, automated public address announcements, and smart lockdown and evacuation protocols.

Furthermore, in conjunction with the Bosch Gun Detection System, we are able to offer OPENGATE™. OPENGATE™ is a detection device that prevents the access of mass casualty shooting weapons in protected areas with minimum or no impact on the checkpoint transit flow and throughout. This very high transit rate and extreme threat item discrimination allows the inspection of people, along with their personal items and carry-on bags with zero or minimum waiting time and secondary screening costs.

Our solution satisfies this RFP and we look forward to partnering with you. Please don't hesitate to contact us for any questions you may have. We look forward to the next step!

Regards,

Daniel McCoulskey
Climatec | Sales Manager – Security and Life Safety

C: 214-766-9345

EXHIBIT 1
CATEGORIES SELECTED, DISCOUNTS FOR PRICING & CURRENT PUBLISHED PRICE LIST

- **Please place a checkmark next to each Category that you are offering in your proposal:**

☒ Service Category #1: Gunshot Detection Systems

☒ Service Category #2: Other Ancillary Services

- **Proposed Contractual Discounts on Pricing for Categories Offered**

For each of the categories you selected above, provide your proposed **discount** off your list price on the attached *Bid Price Worksheet*. You may offer tiers of discounts based on the different bid items or the sale quantity.

- **Current Published Price List for Items Offered**

For each of the bid items you wish to offer, please provide the current published list price. Please attach this information to your proposal on a separate sheet or via a weblink. Please match the Category item number from the Bid Price Worksheet to the matching item on your current published price list.

NOTE: The current price list will NOT be a part of your contractual obligation and may be modified at your discretion during the term of any contract that is awarded to you. You are however requested to provide us with an updated version of the current price list whenever it is updated. Only the percentage discount is contractually obligated.

BID PRICE WORKSHEET FOR RFP #2025-003

Service Category #1: Gunshot Detection Systems

Item	Description	% Discount Off Your Regular List Price
------	-------------	---

- | | | | |
|---|---------------------|---|-----------|
| 1 | Technology Products | Bosch, gunshot detection | -7% Off |
| 2 | Implementation | Installation Services
Freight and Per Diem handled seperately | -25% Off |

Service Category #2: Other Ancillary Services

Item	Description	% Discount Off Your Regular List Price
------	-------------	---

- 2 Describe Below:

A	CEIA OpenGate Weapons Detection	List Price
B	Milestone Systems Video Management	-5% Off
C		

EXHIBIT 2
SAMPLE MARKET BASKET FORM

For the items on the MARKET BASKET WORKSHEET, please enter your current unit price for the items you are offering in your proposal. You may attach, or link to, a copy of your current list pricing. This form is for evaluation purposes only and will not be part of any awarded contract.

[Price Lists attached.](#)

Security and Life Safety Labor Rates

Effective January 1,2024

The following rates and charges are published for installation or service of Security & Life Safety Equipment. These rates are subject to change at any time and only the current prevailing rate is applicable for customer billing.

Labor Rates

	LIST PRICE			Discounted - 25% Off		
	Regular	Overtime	Holiday	Regular	Overtime	Holiday
	2 hr min	4 hr min	4 hr min	2 hr min	4 hr min	4 hr min
Install	\$150.00	\$225.00	\$300.00	\$112.50	\$168.75	\$225.00
Programming	\$180.00	\$270.00	\$360.00	\$135.00	\$202.50	\$270.00
CAD	\$180.00	\$270.00	\$360.00	\$135.00	\$202.50	\$270.00
Engineering	\$195.00	\$292.50	\$390.00	\$146.25	\$219.38	\$292.50
Service	\$180.00	\$270.00	\$360.00	\$135.00	\$202.50	\$270.00
Program Management	\$180.00	\$270.00	\$360.00	\$135.00	\$202.50	\$270.00

Regular Rate "on site" during normal business hours (7:30am to 4:30pm Monday - Friday)

Overtime Rate (after 4:30pm or Weekends)

Holiday Rate (Climatec observed Company Holidays)

Shipping and Freight

Freight is not discounted and calculated at a rate of 5% of material cost

Per Diem

Per Diem may be added to any project at a rate of \$275 per day and is not subject to discount

SERVICE DESIGNATION AREAS

Texas Service Area Designation or Identification			
Proposing Firm Name:	Climatec LLC		
Notes:	Indicate in the appropriate box whether you are proposing to service the entire state of Texas		
	Will service the entire state of Texas	Will not service the entire state of Texas	
	✓ We will service the entire state of TX		
	If you are not proposing to service the entire state of Texas, designate on the form below the regions that you are proposing to provide goods and/or services to. By designating a region or regions, you are certifying that you are willing and able to provide the proposed goods and services.		
Item	Region	Metropolitan Statistical Areas	Designated Service Area
1.	North Central Texas	16 counties in the Dallas-Fort Worth Metropolitan area	
2.	High Plains	Amarillo Lubbock	
3.	Northwest	Abilene Wichita Falls	
4.	Upper East	Longview Texarkana, TX-AR Metro Area Tyler	
5.	Southeast	Beaumont-Port Arthur	
6.	Gulf Coast	Houston-The Woodlands-Sugar Land	
7.	Central Texas	College Station-Bryan Killeen-Temple Waco	
8.	Capital Texas	Austin-Round Rock	
9.	Alamo	San Antonio-New Braunfels Victoria	
10.	South Texas	Brownsville-Harlingen Corpus Christi Laredo McAllen-Edinburg-Mission	
11.	West Texas	Midland Odessa San Angelo	
12.	Upper Rio Grande	El Paso	

(Exhibit 3 continued on next page)

EXHIBIT 4 QUESTIONNAIRE

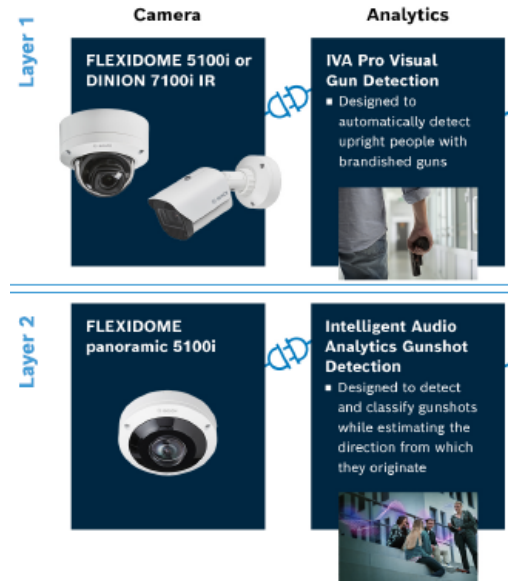

Please answer the following questions using this questionnaire. You may add pages or attachments where necessary but please number them to correspond with the question you are answering.

5.1 Technical Specifications

5.1.1 Describe the proposed technology and how it works (including hardware and software).

Climatec's base solution is the Bosch AI gun Detection and camera kit. This layered solution allows municipalities, schools, and businesses the ability to monitor both visually and audibly. Offered in an exterior as well as an interior version, this solution utilizes the power of AI to provide both proactive weapons prevention and reactive gunshot detection. Typically, this solution is deployed in a vestibule or entry way where cameras can be properly placed for correct camera coverage.

This "kit" consists of two dome cameras and one panoramic camera. The two dome cameras utilize artificial intelligence to look for weapons. When properly placed these cameras utilize AI to detect a weapon before it can be used. To complement these two cameras, the panoramic camera gives you a visual overview of the area providing enhanced situational awareness as well as active audio monitoring for gunshot detection. All three of these cameras, as quoted will be deployed as a stand-alone solution. If a customer would like to tie these cameras into an existing video management system, in most cases that can be done for limited additional cost and we can advise on compatibility. Also, multiple kits can be deployed within one system and additional panoramic cameras can be added to the solution to expand the audio capabilities into other areas of the facility. Software licensing for this solution can be purchased as an annual or a perpetual license.

Below is information provided by Bosch on the solution:

Using AI gun detection to help ensure safety and security

All businesses face the challenge of creating safer environments for their employees and visitors while maintaining a productive and welcoming atmosphere. Our award-winning AI Gun Detection System is the first to pair video and audio AI to detect guns and gunshots in various locations. Designed to be nearly invisible, our Gun Detection System offers a discreet alternative to traditional metal detection systems. Its unobtrusive nature ensures a smooth daily flow for employees and visitors in workplaces, schools, and government buildings.

- **Designed to detect firearms and alert personnel for verification**
- **Designed to detect and classify gunshots while estimating the sound's origins**
- **Provides high-quality video for forensics to assist first responders in an emergency**
- **Assists security staff in ensuring the safety of people**

The Gun Detection System has been named a CES® 2024 Innovation Awards Best of Innovation Honoree in the AI category and an Innovation Awards honoree in the Human Security for All category.

**The CES Innovation Awards are based upon descriptive materials submitted to the judges. Consumer Technology Association (CTA) did not verify the accuracy of any submission or of any claims made and did not test the item to which the award was given.*

Take your security to the next level with visual and audio AI

When someone brandishing a gun approaches a location, our AI Gun Detection System is designed to promptly alert personnel who can verify the gun and take proactive measures. If a gun is not visually detected, audio AI, the second layer, is designed to detect and classify gunshots while estimating the direction from which the sound originates.

The Gun Detection System can operate independently, but it is also compatible with other systems like video, access control, and public address. These integration paths may enable quick and appropriate responses, such as executing access control measures, including automatically locking doors to prevent entry, and initiating automated public address and two-way radio announcements. And since the system's visual and audio layers are camera-based, security staff can also rely on high-quality video footage for forensics supporting first responders.

Minimize false alarms with AI alarm verification
Minimizing false alarms is a crucial concern of security professionals. Our cloud-based AI alarm verification service adds a second pair of eyes to verify questionable alerts, operating like instant replay technology in football games. Acting like a referee, the service works continuously, verifying every alarm on the edge. It is designed to confirm potential threats and rescind or escalate alarms quickly, driving false alarms to near zero. As an add-on service, it pairs seamlessly with our Gun Detection System, creating a hybrid solution unlike other systems requiring a cloud connection. Rest assured; unverified camera alarms may automatically escalate to our edge verification system if a network connection is unavailable.

**Early, fast detection,
and notifications**

Designed to reduce reaction time and quickly mobilize emergency response plans before a shot goes off inside the field of view and recognize gunshots outside the field of view.

Privacy protected

No audio or video data needs to be recorded or leave the camera, as AI processing is carried out on-edge, not in the cloud, ensuring the privacy of students and staff.

Frictionless solution

Designed to be nearly invisible as opposed to metal detection systems, the system may help ensure a smooth daily flow for students without interruptions and provide a welcoming atmosphere.

	Order number	Ordering Information
 BOSCH	Bosch KIT-SAFER-GOOD-INT F.01U.420.795	Gun Detection System: Includes three interior AI-enabled cameras surface-mounted, licensing for both IVA Pro Visual Gun Detector and Intelligent Audio Analytics Gunshot Detector, edge storage, VideoView+ notification licensing, and Remote Pro Services for easy deployment.
 BOSCH	Bosch KIT-SAFER-GOOD-EXT F.01U.420.796	Gun Detection System: Includes three exterior AI-enabled cameras with mounting brackets, licensing for both IVA Pro Visual Gun Detector and Intelligent Audio Analytics Gunshot Detector, edge storage, VideoView+ notification licensing, and Remote Pro Services for easy deployment.

In addition to our primary/base solution, Climatec is offering an intelligent Weapons Detection through CIEA OpenGate. Using their experience of over 60 years in the metal and weapons detection industry, CIEA has simplified a more efficient sensor. These units

are completely wireless, mobile and highly reliable. These units come ready for Milwaukee batteries which are readily available or can also be purchased through Climatec. By purchasing in this way, OpenGate sensors can be deployed in a main entrance/vestibule for daily use and/or moved and used for special events in both interior and exterior situations.

The Opengate towers can be used independently from our base solution(Bosch) but when working in tandem give additional layers of security when securing you perimeter. Information on the units from the manufacturer(CEIA) are below

<ul style="list-style-type: none"> 360° VISUAL ALARM INDICATION 	
<ul style="list-style-type: none"> EASY TO RELOCATE AND QUICK TO INSTALL 	
<ul style="list-style-type: none"> CARRYING HANDLE 	
<ul style="list-style-type: none"> A ON / OFF SWITCH B BATTERY COMPARTMENT (2x) C TILT ADJUSTMENT FEET 	
<ul style="list-style-type: none"> DIMENSIONS (WxDxH): 19.7" x 11.8" x 72" mm WEIGHT (without batteries): 24.2 lbs OPERATING TIME (4 batteries): up to 14 hours CHARGING TIME (2 batteries): 130 min 	

• DETECTION TARGET

Mass casualty shooting weapons and IED

• OPERATIONAL USE

Extremely high throughput with near-zero nuisance alarms, provides automatic screening and pre-screening of non-divested people along with their carry-on items

• APPLICATIONS

- Metro and railway stations
- Airport and port terminal entrances
- Convention centers
- Museums
- Stadiums
- Arenas
- Theaters
- Theme parks
- In general all places open to the public characterized by high footfall events or time restricted ingress

• EASY TO RELOCATE AND QUICK TO INSTALL

Is only 25 pounds with less than 1 minute setup time and does not require adjustments or the assembly of mechanical and electrical parts

• INDOOR AND OUTDOOR OPERATIONS

• READY TO SHIP NOW

OPENGATE is a Groundbreaking Weapons Detection System designed for the automatic screening of people in transit, including their luggage, backpacks, and bags, for the detection of **Mass Casualty Metal Threats**, such as high caliber assault weapons and IED devices

- ✓ **OPENGATE is the first wire-free, screening portal** consisting of two independent and self-powered pillars, with each pillar equipped with a support base and electronic analysis system.
- ✓ Contrary to Metal Detector Gates, **OPENGATE does not require a mechanical and electrical connection** between the two transducers that define the passageway.
- ✓ **Acoustic and optical signals**, located at the top of the pillars, provide simultaneous status and alarm indications.
- ✓ **OPENGATE features a near zero rate of nuisance alarms**, and operates with **very high transit flow**, without the need for the divestiture of non-threat items.
- ✓ It is **portable, elegant, easy to set up and ready to use with no installation required**, including the setting and assembly of mechanical and electrical parts.
- ✓ Its structure makes it **suitable for indoor and outdoor operations**, even in conditions of exposure to rain and sunlight, in all environmental conditions that are compatible with security screening operations.
- ✓ The **extreme portability allows quick relocation of the gate**, offering the most suitable solution for places where, for safety reasons, the checkpoint must be moved from obstructions after use.
- ✓ If required, the **detection and signaling parameters can be easily set via the OPENGATE App**, designed for smartphones or tablets.

5.1.2 What kind of weapons can be detected (knives, guns, IED, etc.)?

Primary/Base Solution(Bosch) – Handheld firearms in an active shooter situation. This includes visible handguns and AR styled rifles. It is intended to identify guns that are an existential threat and not ones holstered by a member of a Police Department or a School Resource Officer.

Secondary Solution(CEIA) – The OpenGate platform has multiple sensitivity options that are tied to national security standards. The setting most customers choose to utilize targets firearms. However, a more sensitive setting can be selected that will also alarm on knives. The only challenge with this is that at this sensitivity the units will also alarm on items such as cellphones so security operating produces and response measures must be adjusted appropriately.

5.1.3 What kind of sounds can be detected?

The Bosch gunshot detection analytic alerts for gunshots using state of the art technology developed originally for operational efficiency on the international space station. Below is detailed information from the manufacturer explaining the technology.

Introduction: *Bosch Intelligent Audio Analytics is much more than a sound detector.*

Traditionally, security and detection systems are based on visual monitoring of assets and people. However, video sensors alone are not always the most ideal solution to provide the needed situational awareness to accurately determine the threat and secure the perimeter environmental conditions such as darkness, weather, or physical obstacles may even disable vision capabilities. By including sound, an additional layer of awareness is added to detect certain incidents faster and more reliable. For example, a gunshot or a smoke alarm is better heard than seen. That's why Bosch Building Technologies combines both video and audio sensors with Artificial Intelligence (AI) to enhance awareness and facilitate a quick and appropriate response to an alarming event. With the neural network based Intelligent Audio Analytics the camera helps to recognize incidents of interest in the area around the camera, for both indoor and outdoor applications. Bosch' Intelligent Audio Analytics is based on Bosch SoundSee technology developed to improve operations on board of the International Space Station (ISS). SoundSee interprets sounds using audio AI trained with high quality data to detect unusual sound events.

The FLEXIDOME panoramic 5100i IR is the first Bosch camera to support Intelligent Audio Analytics to intelligently recognize a variety of typical sounds based on a trained dataset (machine learning). With its integrated microphone array, this camera not only recognizes sounds, but also can indicate the direction from where the sound originated. There is no need to record audio, as it is possible to examine sound signatures real-time.

Technology:

Intelligent Audio Analytics by Bosch is a powerful AI-driven audio signal processing algorithm to detect and identify target sounds from the ambient sound. Using Artificial Intelligence, it can differentiate unusual sounds from the background or surrounding noise.

SoundSee:

The analytics algorithm is based on Bosch owned and developed SoundSee technology. This is a deep sound analytics capability that uses machine learning to analyze information contained in emitted noises. SoundSee was developed in a research partnership between Bosch and Astrobotic Technology Inc. started in 2019 to improve the operations on board of the International Space Station (ISS). Its goal was to use auditory analytics to determine whether machines or their components in the ISS needed repair or replacement. The algorithm uses machine learning to analyze subtle acoustic clues in a machine noise and determines whether a machine, or even a single component of a machine, needs to be repaired or replaced. Now, already launched to the ISS for research experiments, SoundSee is scalable for a broad range of commercial uses here on Earth such as predictive maintenance, early warning systems, building technologies and data-driven healthcare.

Recognizing and identifying sounds:

Intelligent Audio Analytics allows the camera to recognize and identify the unique audio signatures of sounds like gunshots or a smoke alarm sound. High level feature extraction is done by Convolutional Neural Networks (CNN) that mimics the human auditory system for sound perception. By creating large datasets to drive the deep neural networks, Bosch is constantly building and improving the algorithms to differentiate similar audio signatures like a car door slam or a truck backfiring, from an actual gunshot. Each one of these events can make a similar sound to human hearing, and yet the response, especially if the event is known, would be very different. By enabling a so called sound detector in the camera, the camera will detect and classify the sound, while ignoring false positives. It will alert the operator instantaneously when the sound matches the audio signature of the selected sound detector

Figure 1: Similar sounds with different audio signatures

The spectrograms above are a visual representation of the audio signatures. The X-axis is time, and the Y-axis is the audio frequency. The intensity is represented by a color. The hotter the color temperature the louder the sound is at that point in frequency and time. The above signatures are clearly different, but most gun types have very similar signatures, yet they are different given the caliber and other specifications of the gun. This information all has to be built into the data model.

Privacy protected:

Intelligent Audio Analytics is fully edge-based, utilizing an AI data model and algorithm running directly on the camera. By relying solely on audio signatures, privacy is protected, as no actual audio needs to be recorded or has to leave the camera. Instead, only metadata is streamed together with the video stream. Also, no client side software or external connectivity to the cloud is necessary. For installations with elevated privacy concerns or restrictions, such as public spaces or schools, the audio output can be permanently blocked through a special license. With the license activated, the system operator won't be able to access the actual audio stream to ensure privacy is protected. Even with the audio being blocked, the camera still maintains the capability to run Intelligent Audio Analytics, sending metadata for detected events as needed.

Test case performance statistics

Unfortunately, gun violence and school shootings are a reality at American schools and communities. Detecting gunshots in live systems, helps local security staff and police to take instantaneous action. Thorough data collection and testing has been done on multiple sites for creating the Intelligent Audio Analytics Gunshot Detector. The next sections contain results of a series of test cases conducted for both indoor and outdoor applications, encompassing evaluations of both true and false positives. Tests are done at the default detector threshold value of 50%.

Test case 1 – Elementary school building (indoor)

The first case shows the results from a police training for active shooters in an elementary school in the USA ($n=117$). The test was done with two types of firearms: a 9mm pistol and a .223 rifle. The distance between the camera and the gunshots was between 20 and 100ft (6-30m).

Note: During this test no false positive testing was done.

Location	Handgun (9mm)	Rifle (.223)
Café	100%	100%
Gym	100%	100%
Hallways	100%	100%
Library	100%	100%

Test case 2 – Law enforcement training complex (indoor)

The second indoor test case shows the results at a law enforcement training complex in a community college ($n=1436$). There were four FLEXIDOME panoramic 5100i cameras used for gunshot detection.

Note: During this test no false positive testing was done.

Distance	Handgun	Shotgun	Rifle	Total
25ft / 8m	100%	100%	100%	100%
50ft / 16m	100%	100%	100%	100%
100ft / 31m	83,8%	90%	98,7%	90,8%
150ft / 45m	65,6%	87,5%	100%	83,3%

Gun types per category

- Handgun (pistols) category includes 9mm, 22lr, 25, 40, 44mag, 45, 357 and 380
- Shotgun category includes 12gauge and 20gauge
- Rifle (Bolt / Semi-Automatic) category includes 6.5, 223, 242, 243, 30.06, 300blk, 308, 5.45 and 7.62

Test case 3 – Open field (outdoor)

The third test case shows the results of an outdoor shooting range test conducted in the USA ($n=775$). This test covered 17 different types of firearms at multiple distances between 25 and 150 ft (8-45m) away from the camera. The tests at 25-50ft (8-16m) and 125-150ft (38-45m) were done in normal weather conditions, and the test at 75-100ft (23-31m) was done under very windy conditions (affecting performance)

Distance	Handgun	Shotgun	Rifle	Total
25-50ft	87,5%	100%	100%	94,3%
75-100ft	89,5%	76,4%	97,9%	92,3%
125-150ft	85,0%	69,5%	97,7%	89,6%

Test case 4 – False positive testing

Key to the success of the Intelligent Audio Analytics Gunshot Detector is to eliminate false alarms. When the system incorrectly identifies a harmless sound as a potential threat, it can lead to unnecessary and costly investigations, wasting resources and causing public alarm. Moreover, repeated false positives may erode trust in the surveillance system, undermining its effectiveness and leading to potential privacy concerns.

Below two tables show the results of deliberate worst case scenarios trying to trigger false positives and deceive the system. Under normal operational conditions, the chances of triggering false positives are significantly lower compared to these test scenarios.

Even in this aggressive test, false positives only occurred within 5ft (1.5m) away from the camera.

Forced false positive test on an outdoor parking lot with buildings nearby ($n=496$)

Distance	Pallet drop	Metal shelving	Wood metal hit	Dumpster slam
0ft / 0m	90%	29,1%	16,7%	0%
2.5ft / 0.8m	75%	4,2%	6,7%	0%
5ft / 1.5m	50%	0%	0%	0%
10ft / 3m	0%	0%	0%	0%

Forced false positive test at an indoor mezzanine ($n=472$)

Distance	Metal drop	Pallet drop	Planks hit	Wood metal hit
0ft / 0m	0%	15%	0%	0%
2.5ft / 0.8m	0%	0%	0%	0%
5ft / 1.5m	0%	0%	0%	0%
10ft / 3m	0%	0%	0%	0%

5.1.4 Explain the operating staff requirements.

Base Solution (Bosch) – For proper usage, the Bosch solution should be monitored as well as a proper critical response plan put in place. The active monitoring of the solution can be done with staff or with proper integration into other systems like video, access control, and public address. These integration paths may enable quick and appropriate responses, such as executing access control measures, including automatically locking doors to prevent entry, and initiating automated public address and two-way radio announcements. Whether monitored by staff or automated it is important that, as part of your critical response plan, any alarm is properly verified by trained personnel. Also, since the system’s visual and audio layers are camera-based, security staff can also utilize high-quality video footage for forensics supporting first responders.

Secondary Solution (CEIA) – One staff member can easily manage an OpenGate lane. Part of your critical response plan to a positive alarm would be secondary evaluation of any individual who alarms for a weapon.

5.1.5 Provide an example work schedule overview for implementation.

- 1) Project Kickoff Meeting with Client and other Parties – Following Booking - Coordination with Climatec Project Manager to clarify each parties’ responsibilities and project timeline. Alignment on expectations and scope have to be confirmed. If the facility has items that need to be complete, schedules will be lined out. For example, if the facility has their own Low Voltage contractor that will pull and terminate the category cable, Climatec will need to know when that work will be performed. This helps the PM understand when the proper technicians and programmers need to be deployed to the site. This type of schedule can typically be handled with the proper notice and client coverage for overtime pay. This meeting can take place in person or via web conference depending on the client’s and Climatec PM’s availability and schedule.
- 2) Material Procurement – Following Kickoff Meeting – All materials can currently be received in 4-6 weeks
- 3) Installation:
 - a. Climatec technicians are deployed to site for the installation. A site walk is performed with the proper client representative. This will help mitigate any unforeseen issues that may arise during the installation process.
 - b. Each entry will take up to two days for a full installation and programming. A third day may be required depending on the environment for installation and final cable terminations.

- a. Environment for Installation – This includes ceiling type, drop tile or hard, the number of access hatches if hard capped, unseen fire walls above the ceiling, etc.
- b. If more than one entry is protected at the same facility this timeline may be lowered depending on their proximity to each other and the installation environment.
- c. After the installation is complete the technicians will work with Bosch Pro Services team to verify each entry is properly configured for proper operation.
- 4) Train the client on the proper use of the system. This includes one training session with up to 5 personnel and covers:
 - a. How to verify a weapon has been detected.
 - b. Acknowledgement of alarms within the Bosch VideoView+ system.
- 5) Testing of the system – This must be completed at a time when minimal facility personnel are present. This is due to the potential of a bystander not understanding a test is taking place and firearms will be present and brandished from their holster. It should also be completed with the local law enforcement knowledge or involvement if possible. Unless coordinated ahead of time this test will be performed by the city, county or school district without Climatec personnel present. Any adjustments to the system must be completed by Climatec remotely unless otherwise agreed upon.
- 6) Critical Response Procedures (CRPs) – CLIENT RESPONSIBILITY - CRPs should be under development by the responsible school representative from the point they know they will have the system deployed. CRPs are involved and will take more than one person to finalize. They should include all parties that would be responsible for responding to any portion of an alert, whether true or false.

5.1.6 Explain how you will supervise the implementation.

The primary supervision for the implementation of your project will be handled by our Project Manager. They will have a lead technician that will assist, not only with implementation, but with Quality Control, testing and acceptance. Our Project Manager is also managed by both an Installation Manager as well as our Vice President and General Manager for all work in Texas.

5.1.7 Any parts & equipment customer is expected to provide?

Primary Solution (Bosch)

- a. A network drop per camera. This connection needs to be within 10' of the cameras final location and must have terminations at the head end patch panel and an RJ-Block at the camera placement for connection of a patch cable.
 - i. This scope can be provided by Climatec if desired
- b. PoE switch in associated MDF/IDF Room for powering of cameras.
- c. Internal network connection with internet connectivity. (Required for Cloud services)
- d. Client Workstation(s) for monitoring the Weapons Detection system and verifying alerts.

Secondary Solution (CEIA)

Batteries unless Climatec is asked to provide.

5.1.8 Identify any subcontractors or third-party services that will be utilized in the performance of the services.

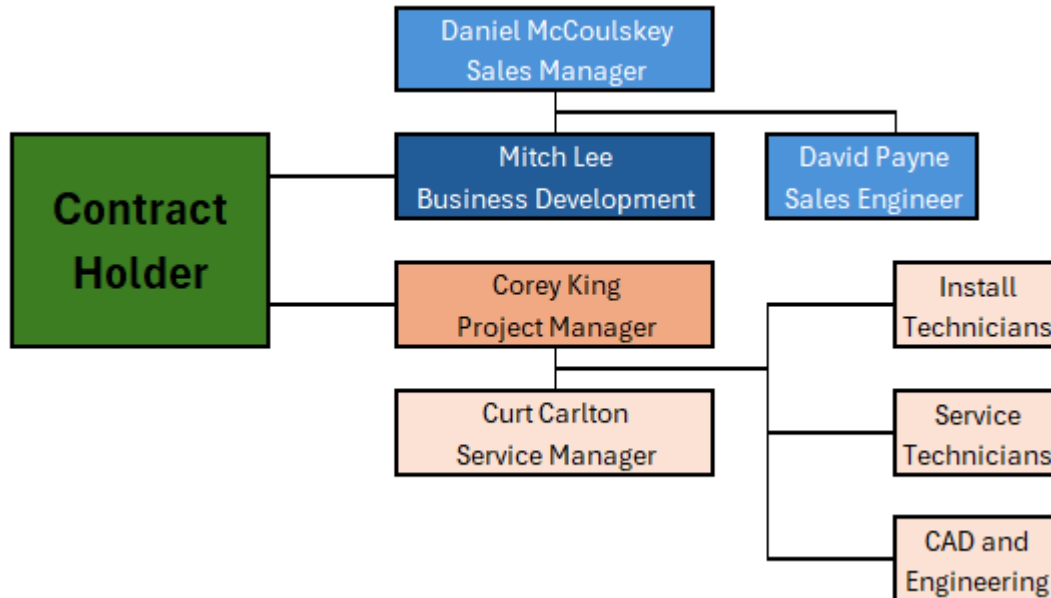

All work to be performed by Climatec

5.1.9 Describe and clearly indicate any exceptions to the specifications or requirements found in this RFP.

Our solutions meet the intent of the RFP

5.2 Project Related Experience and Qualifications

- 5.2.1 Provide a general explanation and chart which specifies project leadership and reporting responsibilities, and how the team will interface with Customer's project management and team personnel.

Mitch Lee – Business Development Manager
Primary point of contact

Mitch joined the team at Climatec in 2024 as Business Development Manager for their North Texas region. Prior to Climatec, Mitch had a very successful tenure with MCA/Knight Security. During the past few years, Mitch has partnered with some of the areas noteworthy clientele including Christus Healthcare, Texas Instruments, Lincoln Properties, Streetlights, USDA, DART, Dallas Community College, City of Farmers Branch, City of Frisco, Collin CO, Grayson CO, Crandall ISD, Kaufman ISD, Greenhill School and Episcopal School of Dallas. His diverse experience allows him to bring a wealth of knowledge to value cost design of security applications. Mitch's strength is a continuous motivation to deliver projects above customer expectations and ensure support afterwards.

Mitch holds a B.S. in Science from Stephen F. Austin State University and a M.S. of Science from the University of Oklahoma.

Corey King – Program Manager
Primary Operational point of contact

Corey has worked in the security industry for 23 years starting out as a technician and has worked his way up to a Project Manager. His career has encompassed the software programming and hardware design requirements for digital video, intrusion, life safety and access control systems. Corey is a Certified Security Project Manager (CSPM) that provides input to sales and coordination of installations. This input could be associated with the areas such as estimating, timing, special resource needs, special technical solutions, code compliancy and requirements or other aspects significant to specific projects. Corey is certified in Bosch Alarm, Lenel Access, Andover Controls, System Galaxy, Verex, Prowatch, Avigilon VMS and ACC, OpenPath.

Daniel McCoulskey – Regional Sales Manager
Sales Oversight and Managerial sponsor

Daniel joined the team at Climatec in 2019 as sales manager for their Texas region. Prior to Climatec, Daniel has had a very successful tenure with Allied Universal and Stanley Security solutions where he worked his way through both organizations in multiple regions and many roles, including Account Executive, Operations Manager, Sales Manager and General Manager. Daniel has been involved with many complex deployments include large scale, military access control implementations, a 73-site school district integrated, video, intrusion and access control installation and a customized patient safety monitoring deployment in a VA mental health facility. Daniel works to provide an exceptional customer experience by cultivating accountability and excellence amongst his team. A graduate of Dallas Baptist University, Daniel has over 20 years of experience in the Security Industry.

Curt Carlton – Service Manager
Oversight of service efforts

Curt has been in the Security / Life Safety industry since 1998. Spanning over 25 years, Curt has occupied nearly every position the industry has to offer. Operational experience ranges from residential and commercial installation, service technician, operations staff, supervisor and managerial roles. During this time he worked with the smallest local firms up to one of the nation's top 10 security providers and global automation giants. Curt also spent time as a salesperson for a small business security company and most recently a senior sales engineer for nationwide monitored video deployments. Here he assisted a regional sales staff as well the customer success department. Curt currently serves as the Service Supervisor and Fire System Project Manager for Climatec. His duties include the day-to-day service operations for the Dallas and Houston areas as well as managing ongoing fire system installations. Curt takes pride on customer success and communication.

David Payne – Applications Engineer
System Design and architecture

David started his security career twenty-six years ago as an installer and serves as the Security Applications Engineer for Texas. In his role David is responsible for Pre-Sales support by working with the manufacturers, subcontractors, and Engineering to ensure the layout of hardware and software applications meet the desired results and then documents those designs and standards for deployment of the system. Through his career David has held positions that span across Operations and Sales that include Lead Technician, Sales Executive, National Account Support Team member, DFW area Security Estimator, Area Sales Manager for Tyco Security Products, and has landed as our Applications Engineer. David has project level experience with The Department of Defense, TXDOT, US Marshall Services and Local jurisdictions.

5.2.2 Any goods or services not outlined in the Scope of Work that you wish to offer?

Climatec is fully capable of providing a turn-key solution or working with the customer's IT team if they have a partner to provide network infrastructure for the project.

5.2.3 Any major requirements that cannot be met by your firm?

No

- 5.2.4 List the business location(s) out of which your firm's team members will work from. You are encouraged to provide options to cover multiple geographic areas outside of Dallas/Fort Worth.

Oue primary place of work is our Irving, TX office, but other offices, listed below, may be used based on project location.

LOCATION	ADDRESS	CITY, STATE	ZIP
IRVING	1632 W Walnut Hill Lane - Suite 100	Irving, TX	75038
AUSTIN	1340 Airport Commerce - Suite 480	Austin, TX	78741
HOUSTON	7701 W Little York Rd - Suite 100	Houston, TX	77040
McALLEN	801 East Fern Ave - Suite 163	McAllen, TX	78501
SAN ANTONIO	1077 Central Parkway South - Suite 900	San Antonio, TX	78232

- 5.2.5 Provide an overview of Proposer's organization, size, years in business, and experience; major clients; and other information that you feel would assist in our evaluation process.

From our beginnings in 1999, we have steadily invested in the people, technology, and services to be our customers' trusted business partner for building solutions. Today, we are one of the leading providers of building technologies and energy solutions in the nation – delivering results for thousands of customers, every day. Our strategic business partners include the world's leading suppliers of building automation, security, life safety, and energy efficiency technologies. With over 25 years in the business, Climatec currently has in excess of 1,200 employees nationally and approximately 200 in the state of Texas. Some of our major customer include Arizona State University, Universal Studios, Lincoln Properties, City of Scottsdale, Ryan LLC, Mayo Clinic, Gateway Church and countless schools and municipalities. Climatec by itself is a 400MM business unit within the larger Bosch Organization. Acquired by Bosch in 2015, Climatec has continued as Bosch's foundation for turnkey building technology and efficiency solutions in North America.

The Bosch organization is a privately held supplier of innovative technology and services with over 400,000 associates worldwide. Its unique private ownership structure was established to promote entrepreneurial freedom and long-term business focus. In fact, 92 percent of Bosch is held by a charitable foundation focused on education, health, science, culture and international relations.

Bosch's operations serve millions of customers across four business sectors: Mobility Solutions, Industrial Technology, Consumer Goods, and Energy and Building Technology. And through Climatec, Bosch delivers comprehensive building comfort, safety and energy efficiency solutions for thousands of customers every day in North America.

- 5.2.6 Describe your invoicing process. Payment terms? Is payment by credit card accepted?

Our standard invoicing process is that projects under 100K are billed when complete. Projects over that amount are partially invoiced when materials are received and then invoiced in full when the project is complete. Our standard payment terms are net-30 and we are setup to take credit card payments, however a 6% fee will be charged on any project that needs to be paid by credit card.

5.2.7 Include a list of no more than five (5) similar contracts awarded within the last 5 years.

The following are contracts awarded to Climatec that are similar in type or scope to this RFP

Dallas Holocaust and Human Rights Museum – Climatec has provided, along with other security products and services, Bosch weapons detection cameras as well as the CEIA weapons detection scanners. - Contact: Mike Weaver, mweaver@dhhrm.org, 214-271-7160

Mesa Unified School District – Climatec has been awarded over \$2MM worth of work involving the CEIA OpenGate Weapons Scanners - Contact: Allen Moore, Armoore@mpsaz.org

Gateway Church - Climatec has been a long term partner of Gateway Church. Climatec supports the situational awareness and video solutions at 12+ campuses in Gateways system. Contact: Josh Mendenhall, joshua.mendenhall@gatewaystaff.com 682-223-6031

BuyBoard – Contract # 733-24 – National non-profit purchasing Coop. Climatec has various products and services listed for procurement, Contact info 800-695-2919, bids@buyboard.com

1GPA – Contract # 21-07P-06 Contract# - National Purchasing Coop. Climatec has various products and services listed for procurement. Contact info 512-970-0179

5.2.8 Identify any contracts within the past three years that were terminated due to non-performance.

There are None.

5.2.9 State the warranty and length of same that may apply to the goods or services you are proposing.

Our primary solution, from Bosch, comes with a manufacturers Five (5) year warranty on all material. The expanded solution, utilizing the CEIA OpenGate Weapons detectors, come with a Two (2) year warranty. In addition, all installation labor is warranted for a period of One (1) year from Climatec.

**ATTACHMENT I: INSTRUCTIONS
FOR PROPOSALS COMPLIANCE AND SUBMITTAL**

Compliance with the Solicitation

Submissions must be in strict compliance with this solicitation. Failure to comply with all provisions of the solicitation may result in disqualification.

Compliance with the NCTCOG Standard Terms and Conditions

By signing its submission, Offeror acknowledges that it has read, understands and agrees to comply with the NCTCOG standard terms and conditions.

Acknowledgment of Insurance Requirements

By signing its submission, Offeror acknowledges that it has read and understands the insurance requirements for the submission. Offeror also understands that the evidence of required insurance must be submitted within ten (10) working days following notification of its offer being accepted; otherwise, NCTCOG may rescind its acceptance of the Offeror's proposals. The insurance requirements are outlined in Section 2.2 - General Terms and Conditions.

ATTACHMENT II: CERTIFICATIONS OF OFFEROR

I hereby certify that the information contained in this proposal and any attachments is true and correct and may be viewed as an accurate representation of proposed services to be provided by this organization. I certify that no employee, board member, or agent of the North Central Texas Council of Governments has assisted in the preparation of this proposal. I acknowledge that I have read and understand the requirements and provisions of the solicitation and that the organization will comply with the regulations and other applicable local, state, and federal regulations and directives in the implementation of this contract.

I also certify that I have read and understood all sections of this solicitation and will comply with all the terms and conditions as stated; and furthermore that I, Bryan Weidenbach (typed or printed name) certify that I am the Regional Vice President (title) of the corporation, partnership, or sole proprietorship, or other eligible entity named as offeror and respondent herein and that I am legally authorized to sign this offer and to submit it to the North Central Texas Council of Governments, on behalf of said offeror by authority of its governing body.

**ATTACHMENT III: CERTIFICATION
REGARDING DEBARMENT, SUSPENSION AND OTHER RESPONSIBILITY MATTERS**

This certification is required by the Federal Regulations Implementing Executive Order 12549, Debarment and Suspension, 45 CFR Part 93, Government-wide Debarment and Suspension, for the Department of Agriculture (7 CFR Part 3017), Department of Labor (29 CFR Part 98), Department of Education (34 CFR Parts 85, 668, 682), Department of Health and Human Services (45 CFR Part 76).

The undersigned certifies, to the best of his or her knowledge and belief, that both it and its principals:

1. Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any federal department or agency;
2. Have not within a three-year period preceding this contract been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State, or Local) transaction or contract under a public transaction, violation of federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification, or destruction of records, making false Proposals, or receiving stolen property;
3. Are not presently indicated for or otherwise criminally or civilly charged by a government entity with commission of any of the offense enumerated in Paragraph (2) of this certification; and,
4. Have not within a three-year period preceding this contract had one or more public transactions terminated for cause or default.

Where the prospective recipient of federal assistance funds is unable to certify to any of the qualifications in this certification, such prospective recipient shall attach an explanation to this certification form.

ATTACHMENT IV: RESTRICTIONS ON LOBBYING

Section 319 of Public Law 101-121 prohibits recipients of federal contracts, grants, and loans exceeding \$100,000 at any tier under a federal contract from using appropriated funds for lobbying the Executive or Legislative Branches of the federal government in connection with a specific contract, grant, or loan. Section 319 also requires each person who requests or receives a federal contract or grant in excess of \$100,000 to disclose lobbying.

No appropriated funds may be expended by the recipient of a federal contract, loan, or cooperative agreement to pay any person for influencing or attempting to influence an officer or employee of any federal executive department or agency as well as any independent regulatory commission or government corporation, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with any of the following covered federal actions: the awarding of any federal contract, the making of any federal grant, the making of any federal loan the entering into of any cooperative agreement and the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan, or cooperative agreement.

As a recipient of a federal grant exceeding \$100,000, NCTCOG requires its subcontractors of that grant to file a certification, set forth in Appendix B.1, that neither the agency nor its employees have made, or will make, any payment prohibited by the preceding paragraph.

Subcontractors are also required to file with NCTCOG a disclosure form, set forth in Appendix B.2, if the subcontractor or its employees have made or have agreed to make any payment using nonappropriated funds (to include profits from any federal action), which would be prohibited if paid for with appropriated funds.

(Continued on next page)

**LOBBYING CERTIFICATION
FOR CONTRACTS, GRANTS, LOANS, AND COOPERATIVE AGREEMENTS**

The undersigned certifies, to the best of his or her knowledge or belief, that:

1. No federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an officer or employee of a Member of Congress in connection with the awarding of any federal contract, the making of any federal loan, the entering into of any cooperative Contract, and the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan, or cooperative contract; and
2. If any funds other than federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this federal contract, grant, loan, and or cooperative contract, the undersigned shall complete and submit Standard Form – LLL, “Disclosure Form to Report Lobbying”, in accordance with the instructions.
3. The undersigned shall require that the language of this certification be included in the award documents for all sub-awards at all tiers and that all sub-recipients shall certify accordingly.

ATTACHMENT V: DRUG-FREE WORKPLACE CERTIFICATION

The Climatec, LLC (company name) will provide a Drug Free Work Place in compliance with the Drug Free Work Place Act of 1988. The unlawful manufacture, distribution, dispensing, possession or use of a controlled substance is prohibited on the premises of the TXShare (company name) or any of its facilities. Any employee who violates this prohibition will be subject to disciplinary action up to and including termination. All employees, as a condition of employment, will comply with this policy.

CERTIFICATION REGARDING DRUG-FREE WORKPLACE

This certification is required by the Federal Regulations Implementing Sections 5151-5160 of the Drug-Free Workplace Act, 41 U.S.C. 701, for the Department of Agriculture (7 CFR Part 3017), Department of Labor (29 CFR Part 98), Department of Education (34 CFR Parts 85, 668 and 682), Department of Health and Human Services (45 CFR Part 76).

The undersigned subcontractor certifies it will provide a drug-free workplace by:

Publishing a policy Proposal notifying employees that the unlawful manufacture, distribution, dispensing, possession or use of a controlled substance is prohibited in the workplace and specifying the consequences of any such action by an employee;

Establishing an ongoing drug-free awareness program to inform employees of the dangers of drug abuse in the workplace, the subcontractor's policy of maintaining a drug-free workplace, the availability of counseling, rehabilitation and employee assistance programs, and the penalties that may be imposed on employees for drug violations in the workplace;

Providing each employee with a copy of the subcontractor's policy Proposal;

Notifying the employees in the subcontractor's policy Proposal that as a condition of employment under this subcontract, employees shall abide by the terms of the policy Proposal and notifying the subcontractor in writing within five days after any conviction for a violation by the employee of a criminal drug abuse statute in the workplace;

Notifying the Board within ten (10) days of the subcontractor's receipt of a notice of a conviction of any employee; and,

Taking appropriate personnel action against an employee convicted of violating a criminal drug statute or requires such employee to participate in a drug abuse assistance or rehabilitation program.

ATTACHMENT VI: DISCLOSURE OF CONFLICT OF INTEREST
CERTIFICATION REGARDING DISCLOSURE OF CONFLICT OF INTEREST

The undersigned certifies that, to the best of his or her knowledge or belief, that:

"No employee of the contractor, no member of the contractor's governing board or body, and no person who exercises any functions or responsibilities in the review or approval of the undertaking or carrying out of this contract shall participate in any decision relating to this contract which affects his/her personal pecuniary interest.

Executives and employees of contractor shall be particularly aware of the varying degrees of influence that can be exerted by personal friends and associates and, in administering the contract, shall exercise due diligence to avoid situations which give rise to an assertion that favorable treatment is being granted to friends and associates. When it is in the public interest for the contractor to conduct business with a friend or associate of an executive or employee of the contractor, an elected official in the area or a member of the North Central Texas Council of Governments, a permanent record of the transaction shall be retained.

Any executive or employee of the contractor, an elected official in the area or a member of the NCTCOG, shall not solicit or accept money or any other consideration from a third person, for the performance of an act reimbursed in whole or part by contractor or Department. Supplies, tools, materials, equipment or services purchased with contract funds shall be used solely for purposes allowed under this contract. No member of the NCTCOG shall cast a vote on the provision of services by that member (or any organization which that member represents) or vote on any matter which would provide a direct or indirect financial benefit to the member or any business or organization which the member directly represents".

No officer, employee or paid consultant of the contractor is a member of the NCTCOG.

No officer, manager or paid consultant of the contractor is married to a member of the NCTCOG.

No member of NCTCOG directly owns, controls or has interest in the contractor.

The contractor has disclosed any interest, fact, or circumstance that does or may present a potential conflict of interest.

No member of the NCTCOG receives compensation from the contractor for lobbying activities as defined in Chapter 305 of the Texas Government Code.

Should the contractor fail to abide by the foregoing covenants and affirmations regarding conflict of interest, the contractor shall not be entitled to the recovery of any costs or expenses incurred in relation to the contract and shall immediately refund to the North Central Texas Council of Governments any fees or expenses that may have been paid under this contract and shall further be liable for any other costs incurred or damages sustained by the NCTCOG as it relates to this contract.

**ATTACHMENT VIII: CERTIFICATION OF GOOD STANDING
TEXAS CORPORATE FRANCHISE TAX CERTIFICATION**

Pursuant to Article 2.45, Texas Business Corporation Act, state agencies may not contract with for profit corporations that are delinquent in making state franchise tax payments. The following certification that the corporation entering into this offer is current in its franchise taxes must be signed by the individual authorized on Form 2031, Corporate Board of Directors Resolution, to sign the contract for the corporation.

The undersigned authorized representative of the corporation making the offer herein certified that the following indicated Proposal is true and correct and that the undersigned understands that making a false Proposal is a material breach of contract and is grounds for contract cancellation.

Indicate the certification that applies to your corporation:

 X The Corporation is a for-profit corporation and certifies that it is not delinquent in its franchise tax payments to the State of Texas.

 The Corporation is a non-profit corporation or is otherwise not subject to payment of franchise taxes to the State of Texas.

Type of Business (if not corporation): ☐ Sole Proprietor

☐ Partnership

☐ Other

Pursuant to Article 2.45, Texas Business Corporation Act, the North Central Texas Council of Governments reserves the right to request information regarding state franchise tax payments.

**ATTACHMENT X: NCTCOG FEDERAL AND STATE OF TEXAS
REQUIRED PROCUREMENT PROVISIONS**

The following provisions are mandated by Federal and/or State of Texas law. Failure to certify to the following will result in disqualification of consideration for contract. Entities or agencies that are not able to comply with the following will be ineligible for consideration of contract award.

**PROHIBITED TELECOMMUNICATIONS AND VIDEO SURVEILLANCE SERVICES OR EQUIPMENT
CERTIFICATION**

This Contract is subject to the Public Law 115-232, Section 889, and 2 Code of Federal Regulations (CFR) Part 200, including §200.216 and §200.471, for prohibition on certain telecommunications and video surveillance or equipment.

Public Law 115-232, Section 889, identifies that restricted telecommunications and video surveillance equipment or services (e.g., phones, internet, video surveillance, cloud servers) include the following:

- A) Telecommunications equipment that is produced by Huawei Technologies Company or ZTE Corporation (or any subsidiary or affiliates of such entities).
- B) Video surveillance and telecommunications equipment produced by Hytera Communications Corporations, Hangzhou Hikvision Digital Technology Company, or Dahua Technology Company (or any subsidiary or affiliates of such entities).
- C) Telecommunications or video surveillance services used by such entities or using such equipment.
- D) Telecommunications or video surveillance equipment or services produced or provided by an entity that the Secretary of Defense, Director of the National Intelligence, or the Director of the Federal Bureau of Investigation reasonably believes to be an entity owned or controlled by the government of a covered foreign country. The entity identified below, through its authorized representative, hereby certifies that no funds under this Contract will be obligated or expended to procure or obtain telecommunication or video surveillance services or equipment or systems that use covered telecommunications equipment or services as a substantial or essential component of any system, or as a critical technology as part of any system prohibited by 2 CFR §200.216 and §200.471, or applicable provisions in Public Law 115-232 Section 889.

☒ **The Contractor or Subrecipient hereby certifies that it does comply with the requirements of 2 CFR §200.216 and §200.471, or applicable regulations in Public Law 115-232 Section 889.**

DISCRIMINATION AGAINST FIREARMS ENTITIES OR FIREARMS TRADE ASSOCIATIONS

This contract is subject to the Texas Local Government Code chapter 2274, Subtitle F, Title 10, prohibiting contracts with companies who discriminate against firearm and ammunition industries.

TLGC chapter 2274, Subtitle F, Title 10, identifies that "discrimination against a firearm entity or firearm trade association" includes the following:

- A) means, with respect to the entity or association, to:
- I. refuse to engage in the trade of any goods or services with the entity or association based solely on its status as a firearm entity or firearm trade association; and
 - II. refrain from continuing an existing business relationship with the entity or association based solely on its status as a firearm entity or firearm trade association; or
 - III. terminate an existing business relationship with the entity or association based solely on its status as a firearm entity or firearm trade association.
- B) An exception to this provision excludes the following:
- I. contracts with a sole-source provider; or
 - II. the government entity does not receive bids from companies who can provide written verification.

The entity identified below, through its authorized representative, hereby certifies that they have no practice, policy, guidance, or directive that discriminates against a firearm entity or firearm trade association; and that they will not discriminate during the term of the contract against a firearm entity or firearm trade association as prohibited by Chapter 2274, Subtitle F, Title 10 of the Texas Local Government Code.

☒ **The Contractor or Subrecipient hereby certifies that it does comply with the requirements of Chapter 2274, Subtitle F, Title 10.**

BOYCOTTING OF CERTAIN ENERGY COMPANIES

This contract is subject to the Texas Local Government Code chapter 809, Subtitle A, Title 8, prohibiting contracts with companies who boycott certain energy companies.

TLGC chapter Code chapter 809, Subtitle A, Title 8, identifies that "boycott energy company" means, without an ordinary business purpose, refusing to deal with, terminating business activities with, or otherwise taking any action that is intended to penalize, inflict economic harm on, or limit commercial relations with a company because the company:

- I. engages in the exploration, production, utilization, transportation, sale, or manufacturing of fossil fuel-based energy and does not commit or pledge to meet environmental standards beyond applicable federal and state law; and
- II. does business with a company described by paragraph (I).

The entity identified below, through its authorized representative, hereby certifies that they do not boycott energy companies, and that they will not boycott energy companies during the term of the contract as prohibited by Chapter 809, Subtitle A, Title 8 of the Texas Local Government Code.

☒ The Contractor or Subrecipient hereby certifies that it does comply with the requirements of Chapter 809, Subtitle A, Title 8.

CONFLICT OF INTEREST QUESTIONNAIRE For vendor doing business with local governmental entity		FORM CIQ
<p>This questionnaire reflects changes made to the law by H.B. 23, 84th Leg., Regular Session.</p> <p>This questionnaire is being filed in accordance with Chapter 176, Local Government Code, by a vendor who has a business relationship as defined by Section 176.001(1-a) with a local governmental entity and the vendor meets requirements under Section 176.006(a).</p> <p>By law this questionnaire must be filed with the records administrator of the local governmental entity not later than the 7th business day after the date the vendor becomes aware of facts that require the statement to be filed. See Section 176.006(a-1), Local Government Code.</p> <p>A vendor commits an offense if the vendor knowingly violates Section 176.006, Local Government Code. An offense under this section is a misdemeanor.</p>	OFFICE USE ONLY	
<p>1 Name of vendor who has a business relationship with local governmental entity.</p> <p style="text-align: center;">We have no conflict of Interest with anyone</p>	<p>Date Received</p>	
<p>2 <input type="checkbox"/> Check this box if you are filing an update to a previously filed questionnaire. (The law requires that you file an updated completed questionnaire with the appropriate filing authority not later than the 7th business day after the date on which you became aware that the originally filed questionnaire was incomplete or inaccurate.)</p>		
<p>3 Name of local government officer about whom the information is being disclosed.</p> <p style="text-align: center;">_____ Name of Officer</p>		
<p>4 Describe each employment or other business relationship with the local government officer, or a family member of the officer, as described by Section 176.003(a)(2)(A). Also describe any family relationship with the local government officer. Complete subparts A and B for each employment or business relationship described. Attach additional pages to this Form CIQ as necessary.</p> <p style="margin-top: 20px;">A. Is the local government officer or a family member of the officer receiving or likely to receive taxable income, other than investment income, from the vendor?</p> <p style="text-align: center;"> <input type="checkbox"/> Yes <input type="checkbox"/> No </p> <p style="margin-top: 10px;">B. Is the vendor receiving or likely to receive taxable income, other than investment income, from or at the direction of the local government officer or a family member of the officer AND the taxable income is not received from the local governmental entity?</p> <p style="text-align: center;"> <input type="checkbox"/> Yes <input type="checkbox"/> No </p>		
<p>5 Describe each employment or business relationship that the vendor named in Section 1 maintains with a corporation or other business entity with respect to which the local government officer serves as an officer or director, or holds an ownership interest of one percent or more.</p>		
<p>6 <input type="checkbox"/> Check this box if the vendor has given the local government officer or a family member of the officer one or more gifts as described in Section 176.003(a)(2)(B), excluding gifts described in Section 176.003(a-1).</p>		
<p>7</p> <div style="display: flex; justify-content: space-between; align-items: flex-end; margin-top: 20px;"> <div style="text-align: center;">  Signature of vendor doing business with the governmental entity </div> <div style="text-align: center;"> <p>10/29/2024</p> Date </div> </div>

CEIA USA, LTD. – TERMS AND CONDITIONS OF SALE

1. **ENTIRE AGREEMENT:** The terms and conditions hereof, together with the provisions on the face hereof with respect to description, quantity and price of goods ordered and delivery terms, shall constitute the entire agreement between the purchaser thereof ("Purchaser") and CEIA USA, LTD. ("Seller"), and any representations, and course of prior dealings, promise or condition in connection herewith or usage of the trade not expressly incorporated herein, shall not be binding on Seller. No waiver, alteration or modification of any of the provisions hereof shall be binding, unless in writing and signed by a specifically authorized representative of Seller. ANY ATTEMPTED ACKNOWLEDGEMENT OF THIS SALE BY A PURCHASE ORDER OR OTHER DOCUMENT CONTAINING TERMS AND CONDITIONS INCONSISTENT WITH OR IN ADDITION TO THE CONDITIONS CONTAINED HEREIN SHALL NOT BE BINDING UPON SELLER AND SELLER HEREBY EXPRESSLY OBJECTS TO AND REJECTS THE SAME. UNLESS OTHERWISE AGREED BY THE PARTIES IN WRITING, SELLER'S ACCEPTANCE OF PURCHASER'S ORDER REQUEST IS EXPRESSLY MADE CONDITIONAL ON PURCHASER'S AGREEMENT TO THE TERMS AND CONDITIONS CONTAINED HEREIN.
2. **PRICE:** All quoted prices are good for ninety (90) days from the date shown on the face of the quote. Prices quoted are based upon production quantity; if order quantity, release quantity or release schedules change, the price for goods is subject to adjustment by Seller. All costs specified herein as borne by Purchaser shall be in addition to the quoted price. All bills shall be dated the date of shipment. Upon approved credit, payment shall be due on all sales of goods net thirty (30) days unless different terms have been agreed upon. Otherwise, Seller reserves the right at any time to require full or partial payment in advance. A late charge of one to one and one-half percent (1-1/2%) per month will be charged on the unpaid balance of overdue invoices. If shipments are delayed by Purchaser, payments shall become due from the date when Seller is prepared to make shipment. Goods held for Purchaser shall be at the risk and expense of Purchaser. Unless otherwise indicated, installation and training charges shall be invoiced separately.
3. **SHIPMENT, PLACE OF DELIVERY AND RETENTION OF TITLE:** Goods covered by this contract are sold Ex Works ("EXW") (as that term is defined and used in Incoterms 2010, as agreed from time to time) Hudson, Ohio (unless otherwise indicated in writing), and Seller's placement of such goods in the possession of a trucking company or other common carrier shall constitute delivery to Purchaser and risks of loss or damage in transit shall be borne by Purchaser; provided, however, all goods delivered shall remain the property of Seller until such time as all claims, including any balances, which Seller may have against Purchaser for any reason whatsoever have been satisfied. If such retention of title would be void under the laws enforced at the place where the goods are located, Seller reserves and Purchaser grants to Seller a security interest in all goods sold and all proceeds thereof to secure the full payment and performance by Purchaser of its liabilities and obligations to Seller. If any action on the part of Purchaser is required to effect such security interest, Purchaser shall be obligated to take all measures necessary to effect and preserve the same. Freight charges shall be pre-paid by Seller and added to Purchaser's invoice. Excess shipping and/or transportation charges, including a handling charge, resulting from compliance with Purchaser's request with respect to the use of any agency or method of transportation or any routing other than that which would otherwise have been designated by Seller shall be paid by Purchaser, including but not limited to Purchaser picking-up its own goods from Seller.
4. **SELLER'S DEFAULT OR DELAYS:** Processing and shipment of orders are subject to strikes, fires, floods, accidents, riots, government orders or any other factors beyond Seller's reasonable control. Seller shall not be liable for any loss or delay resulting from these factors beyond Seller's reasonable control.
5. **CANCELLATION:** No order is subject to cancellation or change by Purchaser in any respect without Seller's prior written consent. In the event Purchaser defaults on its agreement to purchase the goods or refuses to accept delivery of the goods pursuant to this Agreement, Seller shall be entitled, in addition to any of its other rights under this agreement or as provided by law, to recover from the Purchaser an amount equal to all of Seller's damages (including reasonable overhead charges) for such breach, and Seller shall have the right to retain, in partial or complete payment of such amount, the total of all payments made hereunder less only that portion, if any, in excess of such amount. Seller has the right to cancel any order if Purchaser: (a) becomes insolvent; (b) files a voluntary petition in bankruptcy; (c) has an involuntary petition in bankruptcy filed against it; has a receiver or trustee appointed for it; (e) makes an assignment for the benefits of creditors; or (f) breaches this or any other agreement with Seller.
6. **PURCHASER'S DUTY TO INSPECT AND NOTIFY SELLER OF DEFECTS:** Purchaser shall fully inspect the goods upon receipt. Within ten (10) days after Purchaser's receipt of the goods, Purchaser shall give written notice to Seller of any claim that the goods are defective in any manner, where such defect is ascertainable upon adequate inspection. In such written notice, Purchaser shall specify in detail the basis for all claims against Seller. The costs and expense of such inspection shall be borne solely and exclusively by Purchaser. If Purchaser fails either to inspect the goods or to send Seller written notice of all claims within ten (10) days after receipt, Purchaser shall be conclusively deemed to have waived any claims against Seller based upon, arising out of, or related to any defect that was ascertainable upon adequate inspection of the goods.
7. **WARRANTY AND LIMITATION OF LIABILITY:** Seller warrants that, for a period of two (2) years from the date of shipment, all of the goods delivered will be of the kind designated or specified (normal wear and tear excepted). Warranty on batteries of any kind, including rechargeable batteries, lasts one (1) year from the date of shipment. Seller shall be promptly notified in writing by Purchaser of any failure to meet this warranty. The conditions of any test designed to resolve any alleged breach of warranty shall be mutually agreed upon, and Seller shall be notified of and may be represented in all such tests that may be made. Seller's obligation to Purchaser with respect to any goods found to be defective shall be limited to replacing (with new or refurbished goods, as Seller deems appropriate in its sole discretion) or repairing such goods at Seller's facility (labor charges not included) or such other point as Seller may designate, provided that written notice of such defect is received by Seller from Purchaser within two (2) years from the

CEIA USA, LTD. – TERMS AND CONDITIONS OF SALE

date of shipment by Seller. Any claim not made within such two (2) year period shall be conclusively deemed waived by Purchaser; provided, however, notwithstanding the notice requirement contained in the preceding sentence, if Purchaser failed to inspect the goods or to send Seller written notice of all claims within ten (10) days of receipt of goods, as set forth in the preceding section, Purchaser shall be conclusively deemed to have waived any claim against Seller based upon, arising out of, or related to any defect that was ascertainable upon adequate inspection of the goods. No goods are to be returned to Seller without its prior written authorization. There will be a twenty percent (20%) restocking fee in addition to any shipping costs incurred as well as Seller's technician's expense and repair costs, if applicable, for any returned product. If warranty service is required at Purchaser's location, labor and travel charges shall apply. Seller shall not be liable for any expense incurred by Purchaser in order to remedy any defect in its goods. Title to all goods that have been replaced shall thereafter vest in Seller, where Purchaser had previously acquired title pursuant to the provisions hereof. If goods furnished to Purchaser's specifications are used or combined by Purchaser with other products or items not furnished herein, Purchaser shall indemnify and hold harmless Seller from all claims resulting from the use or incorporation of such goods in Purchaser's product. IT IS EXPRESSLY AGREED THAT THIS WARRANTY IS IN LIEU OF ANY AND ALL OTHER WARRANTIES AND LIABILITIES, EXPRESSED OR IMPLIED, INCLUDING BUT NOT LIMITED TO ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR ANY PURPOSE AND ANY LIABILITY FOR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OF THE GOODS SOLD HEREUNDER. THE FOREGOING STATES PURCHASER'S SOLE AND EXCLUSIVE REMEDY AND SELLER'S SOLE AND EXCLUSIVE LIABILITY FOR ANY CLAIM OF DAMAGES IN CONNECTION WITH THE SALE OF GOODS HEREUNDER, WHETHER SUCH CLAIM IS BASED ON WARRANTY, CONTRACT, TORT (INCLUDING NEGLIGENCE), STRICT LIABILITY OR OTHERWISE. SELLER WILL IN NO EVENT BE LIABLE FOR ANY CONSEQUENTIAL, INCIDENTAL, SPECIAL OR CONTINGENT DAMAGE OR EXPENSE ARISING DIRECTLY OR INDIRECTLY FROM ANY DEFECT IN ITS GOODS OR FROM THE USE OF ANY DEFECTIVE GOODS, NOR IS ANY OTHER PERSON AUTHORIZED TO ASSUME FOR SELLER ANY SUCH LIABILITY. SELLER'S LIABILITY FOR LOSSES OR DAMAGES ARISING OUT OF THE SUPPLY OR USE OF ITS GOODS SHALL IN NO EVENT EXCEED THE PRICE CHARGED FOR THE GOODS. THIS WARRANTY SHALL EXTEND TO THE FIRST PURCHASER OF SUCH GOODS FROM SELLER AND SHALL NOT BE ASSIGNED OR TRANSFERRED.

8. EXPORT AND IMPORT CONTROLS: Purchaser acknowledges and agrees that the ultimate destination of the goods is in the United States, unless otherwise agreed to in writing. Purchaser shall not authorize or permit its employees, distributors, customers, brokers, freight forwarders, and/or agents to export or re-export any of the goods to any foreign person without complying with applicable import and export laws and regulations of Purchaser's country and of the United States, including the International Traffic In Arms Regulations (ITAR) and the Export Administration Regulations (EAR). Purchaser agrees to obtain and properly utilize U.S. Government export authorization prior to exporting or re-exporting the goods, either in their original form or after being incorporated into other end- items.

9. CLAIMS: Claims for error in weight or shortage of goods must be presented to Seller in writing within ten (10) days from the date of receipt of the goods and must state the shipping slip number and claim of shipment. Any claim for error in weight or shortage of goods not presented in accordance with this section will be conclusively deemed waived by Purchaser.

10. INTELLECTUAL PROPERTY; PATENT INDEMNITY: Purchaser acknowledges that the goods contain valuable ideas, designs, processes, inventions, patents, research and development, formulas, technologies, copyrights, trademarks, trade secrets, marketing and business ideas, know-how, data, computer hardware, computer software, and/or other intellectual property rights of Seller ("Intellectual Property"). Seller owns and reserves all rights in the Intellectual Property and Purchaser agrees to use such Intellectual Property only in conjunction with the use or operation of such goods and only in accordance with any applicable instructions and manuals furnished by Seller, its suppliers or licensors, if applicable. As such, no title to or ownership of any Intellectual Property related to any goods is transferred to Purchaser pursuant to this agreement unless specifically authorized in writing by Seller. Purchaser will not, directly or indirectly attempt to test, analyze and/or reverse engineer any goods or any component thereof, or to otherwise misappropriate, circumvent or violate any of Seller's Intellectual Property rights. Purchaser will not, directly or indirectly assist any third-party to test, analyze and/or reverse engineer any goods or any component thereof, or to otherwise misappropriate, circumvent or violate any of Seller's Intellectual Property rights. Notwithstanding the provisions of this section, Purchaser will defend, indemnify and hold Seller harmless against any expense or loss resulting from infringement of patents or trademarks arising from its non-compliance with Seller's designs or specifications or instructions.

11. CONFIDENTIAL INFORMATION: Seller may require Purchaser to enter into a Confidentiality and Non-Disclosure Agreement in order to facilitate any sale of goods. In the event Seller and Purchaser enter into a Confidentiality And Non-Disclosure Agreement, the terms of that agreement apply to these terms and conditions and are specifically incorporated herein. In the event Seller and Purchaser do not execute a Confidentiality And Non-Disclosure Agreement, Purchaser shall not improperly use or make available, sell, disclose or otherwise communicate to any third party any information generally not known outside of Seller, including information contained in oral communications, as well as in any tangible expressions referring or relating, but not limited to the Intellectual Property, goods, other techniques, inventions, hardware, software, innovations, patent applications, discoveries, improvements, formats, test results, research projects, manuals, specifications, documentation, notes, industry contacts, information about costs, profits, markets, sales, contracts, lists of customers, lists of distributors, business, marketing, and strategic plans, forecasts, unpublished financial information, budgets, projections and customer identities, characteristics and agreements ("Confidential Information"). Confidential Information is to be broadly defined and includes all information that has or could have commercial value or other utility

CEIA USA, LTD. – TERMS AND CONDITIONS OF SALE

in the business in which Seller is engaged or contemplates engaging, and all information of which the unauthorized disclosure could be detrimental to the interests of Seller, whether or not such information is identified as Confidential Information by Seller. Except as otherwise required by law, neither party shall issue any press release or make any public statement regarding the transaction contemplated by this agreement, without prior written approval of the other party. The provisions of this section shall survive termination of this agreement.

12. NO USE OF NAME OR TRADEMARKS: Purchaser shall not at any time use Seller's name or any Seller logo, trademark, service marks, or trade name in any advertising or publicity without the prior written consent of Seller.

13. TECHNICAL ADVICE: Unless otherwise specifically agreed in writing, neither Seller nor any representative of Seller is responsible for application or supervision of application of the goods. Any supervision or technical advice or assistance furnished other than pursuant to such written agreement does not create any liability on behalf of Seller for any supervision, advice or assistance given or results obtained.

14. CORRECTIONS: Typographical or clerical errors contained in this agreement, including prices, are subject to correction by Seller.

15. TAXES: Prices specified do not include sales, excise or other taxes arising out of or relating to this order or the goods delivered except as otherwise specifically stated on the face hereof. All such taxes are the responsibility of Purchaser; if Purchaser claims it is exempt from tax, it shall provide Seller with a tax exemption certificate acceptable to the taxing authorities.

16. INJUNCTIVE RELIEF: Purchaser acknowledges that failure to carry out any obligation under this agreement, or a breach by Purchaser of any provision herein, shall constitute immediate and irreparable damage to Seller, which cannot be fully and adequately compensated in money damages and which will warrant preliminary and other injunctive relief, an order for specific performance, and other equitable relief. Purchaser further agrees that no bond or other security shall be required in obtaining such equitable relief and Purchaser hereby consents to the issuance of such injunction and to the ordering of specific performance. Purchaser also understands that other action may be taken and remedies enforced against Purchaser.

17. MISCELLANEOUS: These Terms and Conditions of Sale shall be construed under and governed by the laws of the state of Ohio without regard to the rules regarding conflict of laws. If any provision is held to be illegal, invalid or unenforceable, the remaining provisions shall not in any way be affected or impaired thereby. A waiver by Seller of any terms and conditions herein shall not be deemed to be a continuing waiver but shall apply solely to the instance of the waiver.

Security and Life Safety Labor Rates

Effective January 1, 2024

The following rates and charges are published for installation or service of Security & Life Safety Equipment. These rates are subject to change at any time and only the current prevailing rate is applicable for customer billing.

Labor Rates

General Terms and Conditions

Disclaimer

In the event a product is listed at an incorrect price or with an incorrect specification due to typing error or human error Milestone Systems reserves the right to refuse or cancel any orders placed for that product listed at the incorrect price. Milestone Systems reserves the right to refuse or cancel any order or orders due to a pricing error, even if the order has been processed.

Validity

The prices are valid from June 18, 2024, and until further notice.

All prices are in USD.

Valid in: USD.

All prices are manufacturer's suggested retail price (MSRP), according to Incoterms® CIP 2020 for Milestone Husky™ NVRs and VSAs, and DAP Incoterms® 2020 for Milestone Kite™.

Price list revision date: May 14, 2024

Order Handling

All Milestone products can be ordered by distributors on the Milestone website (www.milestonesys.com) via Milestone Store, unless otherwise specified.

Region	Office Hours	Phone	Email
Americas	06:00 – 17:00 PST	+1 503 350 1100	americassalesupport@milestonesys.com

Special Distribution Restrictions Related to Milestone Husky NVRs and Surveillance Appliances Products

Distribution of the Milestone Husky products is conditioned by acceptance and signing of the Milestone Distribution Partner addendum for distributors. The Milestone Husky products may be sold by any reseller subject to the restriction above, and the geographical restrictions agreed with Milestone.

Milestone Kite may be sold by any reseller, subject to the geographical availability, which can be checked in the Milestone Kite™ Channel Partner Policy, published on My Milestone.

End user License Agreement

The deployment and use of any Milestone product is subject to the terms and conditions defined in Milestone end user license agreement (EULA) or in the Milestone Kite Terms of Service (ToS). Please refer to the EULA or the ToS for full details on the terms and conditions applicable to the specific Milestone product.

The latest version of the EULA can be found on Milestone's website: www.milestonesys.com.

The latest version of the Milestone Kite ToS can be found at: <https://www.milestonesys.com/kite-terms-service>.

Licensing Requirements

Milestone XProtect VMS products support IP devices. IP devices can be cameras, encoders, video services or other types of video and non-video devices that are addressed through a unique IP address in the applied installation of the Product.

For IP devices with one IP address included in the Milestone Supported Device List, one device license is needed per IP device connected to and enabled in the Product. For cameras and encoders with more than one enabled IP address the number of required device licenses is specified in the Milestone Supported Device List. Please check the supported IP devices, the required number of licenses and the exceptions in the Supported Device List at <https://www.milestonesys.com/community/business-partner-tools/supported-devices>.

The following exceptions apply for IP devices (with one IP address) listed on the Milestone Supported Device List:

- (i) For IP devices connected to the Product through intermediate device or intermediate system, one device license per enabled video channel is required;
- (ii) IP devices with multiple lens or sensors, and encoders with up to 16 connected analog cameras, count as only one IP device;
- (iii) For encoders with more than 16 channels, one device license per enabled video channel is required.

Milestone always recommends using the driver specified for a given supported device on the Milestone Supported Device List. If you choose to use a universal driver, you will be required to purchase one device license per enabled video channel.

See below for an overview of licensing requirements:

Device Type	Device	License Model
Cameras (IP Devices with video Capabilities*)	Camera on Supported Device List (including multi-lens camera)	1 license per device
	Body-worn camera on Support Device List	1 license per enabled video channel
	Camera not on Supported Device List (including body-worn camera)	1 license per enabled video channel
Intermediate Devices	Encoder on Supported Device List w/ up to 16 channels (analog and HD)	1 license per device
	Encoder not on Supported Device List w/ up to 16 channels (analog and HD)	1 license per enabled video channel
	Encoder on Support Device List w/ more than 16 channels (analog and HD)	1 license per enabled video channel
	NVR/DVR	1 license per enabled video channel
Intermediate System	3rd party VMS connected via Universal Driver w/ ONVIF	1 license per enabled video channel
Other	IP devices used with a Universal Driver	1 license per enabled video channel
	Integration via Video Processing Service Driver	1 license per enabled video channel of returned video. Video out and the return of metadata is free

**IP devices without video capabilities require one device license per IP address.*

Please refer to the Milestone Supported Device List and Milestone EULA for full details on licensing requirements, cf. section "License, Installation and Use Conditions and Restrictions".

Milestone Kite Licensing Requirements

Milestone Kite™ VSaaS products require 1 camera channel license per enabled video channel, regardless if the device is specified in the Milestone Supported Device List or not.

Product Lifecycle

The Milestone Product Lifecycle determines the period when products can be purchased, downloaded and receive support.

For add-on purchases and trade-ins of discontinued products please reach out to your local sales support

Lifecycle for XProtect – active product versions

Milestone's Video Management Software products change status from General Availability to Limited Availability three months after a similar or substituting product has been released. In special cases where a newer version has not been released, Limited Availability will start one year from the General Availability date. Milestone guarantees a minimal availability period of four years for all its VMS products, in which the product becomes Discontinued after three years from its General Availability date and Terminated after four years. Milestone reserves the right to prolong the lifespan of its products at its sole discretion.

The stages are as follows:

- General availability
- Limited availability
- Discontinued
- Terminated

Lifecycle for XProtect – retiring products

Milestone's Video Management Software products follow a different schedule compared to active product versions after it is announced to be retired. The product will follow the changed phases after the last version of the product has been released.

The stages are as follows:

- General availability
- Maintenance mode
- Limited availability
- Terminated

Lifecycle for Husky NVR and Video Surveillance Appliance products

Milestone Husky products have a separate product lifecycle compared to the software offering.

The stages are as follows:

- General availability
- Limited availability
- Sustaining
- Discontinued
- Terminated

Lifecycle for Kite VSaaS

Milestone Kite products and services follow the same principle lifecycle stages as the other VMS and hardware products that Milestone offers. However, being a cloud service, Milestone Kite is constantly updated and does not follow the same release cadence as XProtect.

For additional information and details on how each stage impacts the product in question as well as a list of discontinued and terminated products please visit our website:

<https://www.milestonesys.com/support/resources/product-lifecycle/>

Milestone Care

Milestone Care is a complete software maintenance and technical support program that takes care of your product throughout its lifetime. It is our commitment to you and your business to make sure you can take full advantage of your product and get the most out of your investment. Designed to give you peace of mind, the Care program has two packages. Whether you need recurring software updates or 24/7 access to Milestone Support – there is a package to suit your needs.

Please note that there are slight differences in the support and service coverage of Milestone Care Plus and Care Premium and how the services are purchased between the XProtect VMS software line and the Husky NVR M series product lines.

Please note that Milestone Care packages cannot be purchased for Milestone Kite, as the service is continually updated.

Milestone Care Plus

On a recurring cadence, the XProtect® VMS and certain Milestone add-on products (such as XProtect Rapid REVIEW and XProtect Hospital Assist) are updated to become better, safer, and more powerful. Designed as a software maintenance service, Milestone Care Plus, assures customers have access to the product updates instantly to help protect their initial investment and ensure the solidity of their systems. Here is what is included in Care Plus:

- Recurring product updates
- Full return on your investment

Milestone Care Plus Service Coverage per Product

Milestone Product	Trade-in value of Milestone software	Access to upgrades to more advanced software	Updates to the latest version of the same software
Milestone XProtect VMS Products			
XProtect Express+	100%	Yes, via trade-in order	Instant update via Customer Dashboard, or via trade-in order
XProtect Professional+			
XProtect Expert			
XProtect Corporate		No	
XProtect Add-on Products	Trade-in value of Milestone	Updates to the latest version of the same software	
XProtect Rapid REVIEW	100%	Order via Sales Support	
XProtect Hospital Assist	Device licenses purchased before the 2024 R2 release of Milestone XProtect products will be covered by the Milestone Care Plus service for the same service term of the underlying XProtect VMS product without separate charge.		
Other XProtect add-on Products	Covered by the Milestone Care Plus service to the same extent as the underlying VMS product		
Milestone Husky NVR and Video Surveillance Appliance Products			
Husky X-series	There are no Care Plus options available for the Husky products. Instead Care Plus can be purchased for the specific XProtect VMS used on the Husky products.		
Husky IVO series			

Milestone Care Plus is purchased in slightly different ways dependent on the type of Milestone product. The service coverage can either be purchased in conjunction with the actual product purchase, or made afterwards as a service opt-in purchase, according to the table below:

Milestone Product	Conditions upon initial product purchase	Available coverage periods at initial purchase	Coverage at system expansion (additional devices)	Opt-in option after product purchase
Milestone XProtect VMS Products				
XProtect Express+	Optional	1, 2, 3 and 5 years plans with progressive pricing.	Additional coverage must be purchased for devices added to the product. Expansions can be made by following existing expiration or by calculating a new expiration based on additional Care Plus purchase, and cannot be extended past 5 years.	Possibility to (re-) join Care Plus service via three-year opt-in option
XProtect Professional+				
XProtect Expert	1 year mandatory coverage			
XProtect Corporate				
XProtect Add-on Products				
XProtect Rapid REVIEW	Required to purchase the same Care service level and for the same term as on the underlying VMS.	1, 2, 3 and 5 years plans with progressive pricing.	Required to purchase the same Care service level and for the same term as on the underlying VMS.	Required to purchase the same Care service level and for the same term as on the underlying VMS.
XProtect Hospital Assist	Device licenses purchased before the 2024 R2 release of Milestone XProtect products will be covered by the Milestone Care Plus service for the same service term of the underlying XProtect VMS product without separate charge.			
Other XProtect add-on Products	Covered by the Milestone Care Plus service of the underlying VMS product without separate charge			
Milestone Husky NVR and Video Surveillance Appliance Products				
Husky X-Series	There are no Care Plus options available for the Husky products. Instead Care Plus can be purchased for the specific XProtect VMS used on the Husky products.			
Husky IVO series				

Milestone Care Premium

When support cannot wait for Monday, Milestone Care Premium provides customers with business-critical installations direct, personalized, and prioritized access to the experts in the global Milestone technical support team round-the-clock. Here is what is included in Care Premium:

- 24/7 access to the Milestone Support Team.
- Prioritized support to ensure critical issues are dealt with quickly.
- Support in selected languages based on availability.

Milestone Product	Purchase periods	Pricing	Coverage at system expansion (additional devices)	Opt-in option after product purchase
Milestone XProtect VMS Products				
XProtect Professional+	1, 2, 3 and 5 years plans. Monthly coverage for alignment to specific date.	Percentage of total system, with progressive priced multi-year plans	Additional coverage must be purchased for devices added to the product.	Available at any time, no opt-in fee
XProtect Expert			Expansions can be made by following the existing expiration or by calculating new expiration based on additional Care Premium purchase	
XProtect Corporate				
XProtect Add-on Products				
XProtect Rapid REVIEW	Required to purchase the same Care service level and for the same term as on the underlying VMS.	1, 2, 3 and 5 years plans with progressive pricing.	Required to purchase the same Care service level and for the same term as on the underlying VMS.	Required to purchase the same Care service level and for the same term as on the underlying VMS.
XProtect Hospital Assist	Device licenses purchased before the 2024 R2 release of Milestone XProtect products will be covered by the Milestone Care Premium service for the same service term of the underlying XProtect VMS product without separate charge.			
Other XProtect add-on Products	Covered by the Milestone Care Premium service of the underlying VMS product without separate charge			
Milestone Husky NVR and Video Surveillance Appliance Products				
Husky X-Series	There are no Care Premium options available for the Husky products. Instead Care Premium can be purchased for the specific XProtect VMS used on the Husky products.			
Husky IVO series				

How to purchase Milestone Care

To secure Care Plus coverage the service shall be purchased with the XProtect VMS product, or maximum 30 days after the original product purchase. XProtect VMS customers who want to join the Care Plus service at a later stage, or re-join after a period without coverage can do so using the three years opt-in option. There is also a grace period of 30 days from the expiration of an existing Milestone Care Plus coverage, in which the end-customer can purchase Milestone Care Plus under normal terms.

Milestone Care Premium can be purchased at any time. However, Care Plus must be purchased as a prerequisite and the Care Premium expiration date cannot exceed that of the Care Plus. End customers can purchase Care Premium on any single license, just as they can Care Plus.

The minimum coverage period for both Milestone Care Plus and Care Premium is one year. Milestone Care can however also be purchased in increments of months (in addition to the minimum coverage period), which is beneficial for installations that want to have their Care agreement(s) expire on a certain month (e.g. in alignment with a budgeting period). Milestone Care will always fall on the last day of the calculated month.

Care Premium is optional but if purchasing, the minimum amount on the initial purchase is one (1) year. It also must not exceed the Care Plus date. If purchasing Care Premium when there is less than 1 year of Care Plus on the system, it is required to buy more Care Plus to align with 1 year Care Premium.

(Please note that for Milestone NVR products, Milestone Care coverage period is maximum 5 years from the date of purchase).

The alignment of Care Plus and Care Premium is required for customers who purchase XProtect Rapid REVIEW, according to the rules specified in the tables on pages 7 to 9 of this pricelist.

How to purchase both Milestone Care Plus and Milestone Care Premium coverage in connection with system expansions of an XProtect VMS product

The following section is applicable to XProtect VMS and certain Milestone add-on software products (such as XProtect Rapid REVIEW). Milestone Care is linked to an individual system's base license. Milestone Care for system expansions must be aligned with or extend the Milestone Care of the existing installation. Please note that Milestone Care can never be shortened and will always expire on the last day of the calculated month. When expanding an existing XProtect system with additional cameras, the end-customer can maintain full Milestone Care coverage in two ways:

1. Keep the original Milestone Care coverage period

An end-customer can maintain an existing Milestone Care renewal date when purchasing additional cameras, by purchasing Milestone Care coverage for the additional device licenses on a monthly basis (the required amount is automatically calculated in Milestone Store). This is useful if the main Milestone Care renewal date is aligned with the end customer's calendar or fiscal year.

2. Extend the original Milestone Care coverage period

The end-customer can purchase one or more years of Milestone Care coverage when extending an existing system. This Milestone Care service coverage will be used to calculate a new and prolonged Milestone Care coverage period for the total system (still always expiring on the last day of the calculated month). The new Milestone Care coverage period is calculated based on the value of the remaining main Milestone Care coverage period and the size and nature of the system expansion.

If an end-customer does not want to purchase Milestone Care coverage for the system expansion after possible mandatory initial Milestone Care coverage period, the main Milestone Care will be terminated from the purchase date of the system expansion. Any remaining value of the main Milestone Care coverage period is not refunded. For details on how to ensure continuous Milestone Care coverage in conjunction with system expansions, please contact Milestone Sales Support.

Milestone Care Coverage in connection with upgrades

Milestone Care coverage is linked to a specific Milestone product. This means that end-customers upgrading to a more advanced product, for example when upgrading from XProtect Professional to XProtect Expert must also trade-in their Milestone Care in order to maintain coverage. To enable easy upgrades between different XProtect products, Milestone credits the price of the remaining unused Milestone Care coverage period to the price of the new Milestone Care. It is required to buy at least the same amount of Milestone Care as on the product being traded-in. However, if Milestone Care traded-in is less than one year, a minimum of one year is required on the new product.

A refund from trading-in software products cannot be converted to a cash payout, voucher etc. A negative value will instead be set to 0.00.

Trade-in

Milestone currently offers a unique trade-in policy for our software products, which allows customers to protect investments made in Milestone software. The trade-in policy offers:

- Software update to a newer version of the same product
- Software upgrade to a more advanced product, for example upgrade from XProtect Expert to XProtect Corporate

The present Milestone trade-in policy grants the customer a refund on the old product to be updated/upgraded, where the amount credited is dependent on the Milestone Care service level

- Customers with active Milestone Care Plus are entitled to **100 percent** refund of the current recommended retail price when trading-in licenses for their existing XProtect products.
- Customers without Milestone Care Plus coverage are entitled to **30 percent** refund of the current recommended retail price of their existing product.

A refund from trading in software products cannot be converted to a cash payout, voucher etc., but will instead have to be used for purchase of other Milestone products.

Customers with Milestone Care Plus can instantly update their VMS product to the latest version via the Customer Dashboard (also known as CUDA). Customers who want to upgrade to a more advanced product, or customers without Milestone Care Plus coverage who want to update their present Milestone product need to do that as an order transaction via Milestone Store.

The trade-in options vary slightly between the different Milestone products. For details, please refer to the trade-in options for the specific Milestone product in this price list.

Milestone XProtect products cannot be traded-in to a Milestone Kite subscription.

Please note that the terms outlined above reflect our current trade-in policy, which may be subject to change.

Milestone Kite subscription change policy

Customers using the Milestone Kite service can make changes to their camera channels in their Kite subscription at any time during an active service term. When making such changes the customer will purchase the new desired types of camera channel licenses with a higher storage and/or retention* for the remaining period of the active term (rounded down to the nearest full month), while Milestone will give trade-in credit at the current MSRP value of the old camera channel licenses for the corresponding period towards the new purchase.

*It is only possible to trade up during an active service term.

Possible remaining credit cannot be converted to a cash payout, voucher, etc., nor can it be used for purchasing other Milestone products and services, outside of the Milestone Kite offering.

A Milestone Kite subscription cannot be traded-in to a Milestone XProtect license.

Any change will be in effect once the purchase order has been confirmed. The new camera channel SKUs will be the bases for the renewal of the service term.

Milestone Professional Services

Milestone Professional Services is a portfolio of system deployment and optimization services designed to unlock the full potential of the Milestone system while optimizing the system performance for problem-free and stable operation.

Availability

Any Distributor intermediating Professional Services must sign an addendum written for the purpose. Obligations, rights and liabilities differs from software and hardware sales and must thus be acknowledged and accepted by distributor prior to getting access to the specific Professional Services SKU list.

Statement of Work & Quotation

Any Reseller Partner purchasing Professional Services will receive a Statement of Work (SOW) and Statement of Work Quotation (SOWQ). These two distinct documents formalizes deliverables for all involved legal entities and constitutes acceptance of the included terms, liabilities and cost estimates upon signature by Reseller Partner. Such terms are not relating to payment, but emphasize the role of Reseller Partner, Distributor and how any disputes are governed. Milestone Professional Services are charged on a time and material basis.

Service Reports & Completion Form

The Milestone Engineer shall fill in and obtain Reseller Partner's signature on regular basis to document the delivered work. Service Reports are stating the progress on scheduled delivery and used by Milestone Program Management to monitor compliancy. A SOW will be due for invoicing when the deliverables have been completed.

XProtect VMS Products

XProtect Express+

XProtect Express+ is IP video management software (VMS) for smaller, single-location companies. It is built with innovative technology designed to save you money and boost the overall performance of your hardware. With full alarm management capabilities and multi-layered map XProtect Express+ is suited for business with light live monitoring needs. It can manage up to 48 surveillance cameras and supports simple ways of incorporating video into existing business operations, such as linking access control to live video feeds. XProtect Express+ is the perfect match for retail shops, parking lots or office buildings with moderate security needs.

NOTES

- 1) XProtect Express+ Base License (XPEXPLUSBL) allows the XProtect Express+ server software to be installed on a single computer per Software License Code. The client software can be installed on unlimited number of workstations and at different locations.
- 2) Please refer to the Licensing Requirements on page 5 for further details.
- 3) Can be used to trade-in to corresponding product license for XProtect Professional+, XProtect Expert or XProtect Corporate.
- 4) Can be used to trade-in to newer versions of the same product or corresponding product license for XProtect Professional+, XProtect Expert or XProtect Corporate.

XProtect Professional+

XProtect Professional+ is IP video management software (VMS) designed for mid-sized businesses. It is built with innovative technology designed to save you money and boost the overall performance of your hardware. With the ability for operators to centrally manage all servers, cameras and users the software is ideal for installations spread across multiple sites. Multi-layered maps and full alarm management capabilities give operators a complete overview of their security installation to quickly respond to incidents and provide accurate information to first responders. XProtect Professional+ supports camera-based Edge Storage to help minimize the loss of video and is the perfect choice for institutions such as schools, museums, hospitals and production plants.

XProtect Expert

XProtect Expert is IP video management software (VMS) for mid-sized and large-scale installations. It is built with innovative technology designed to ensure video integrity and boost the overall performance of your hardware. In addition to camera-based Edge Storage support, XProtect Expert offers reliable, uninterrupted video recording and access through failover recording servers in the event of server failure. The software includes central management of an unrestricted number of servers, cameras and users making it the perfect choice for companies deployed across multiple locations. With multi-layered maps, alarm handling and optional integrated video wall support, XProtect Expert is also ideal for installations with active live monitoring such as warehouses and stadiums.

N.B. Milestone Care Plus is mandatory for the whole XProtect Expert installation (applicable to both XPETBL and XPETDL licenses) during the first year after the initial purchase of the Base License (XPETBL).

- 5) Can be used to trade-in to newer versions of the same product, or to corresponding product license for XProtect Corporate.

XProtect Corporate

XProtect Corporate is IP video management software (VMS) designed for large-scale and high-security installations. It is built with innovative technology designed to ensure end-to-end protection of video integrity and boost the overall performance of your hardware. In addition to central management of all servers, cameras and users in a multi-site set-up, XProtect Corporate includes an integrated video wall for operators demanding supreme situational awareness of any event. The software supports failover recording servers making it the perfect choice for mission-critical installations that require continued access to live and uninterrupted video recordings in the event of a server failure. Running on the industry's best performing recording engine with a recording rate of minimum 3.1 Gbit/s, XProtect Corporate is ideal for installations with 24/7 operation requirements, such as airports and casinos.

N.B. Milestone Care Plus is mandatory for the whole XProtect Corporate installation (applicable to both XPCOBT and XPCODL licenses) during the first year after the initial purchase of the Base License (XPCOBT).

NOTES

- 1) XProtect Corporate Base License (XPCOBT) allows the XProtect Corporate server software to be installed on an unrestricted number of servers per Software License Code. The client software can be installed on an unlimited number of workstations and at different locations. When purchased for 2014 or newer versions of XProtect Corporate, the base license includes one XProtect Smart Wall Base License (XPSWBL), and versions 2022 R2 and newer include one XProtect Incident Manager Base License (XPIMBL).
- 2) Please refer to the Licensing Requirements on page 5 for further details.
- 3) One XProtect Corporate Milestone Interconnect Camera License (XPCOMIDL) is required per remote camera enabled in the central XProtect Corporate system. NB. An interconnected remote system without any enabled cameras will require one Milestone Interconnect Camera License.
- 4) Care Plus is mandatory for the whole XProtect Corporate installation (applicable to both XPCOBT and XPCODL licenses) for minimum one year after the initial purchase of the Base License (XPCOBT). Care Plus coverage purchased for the XProtect Corporate Base License (XPCOBT) also covers the included XProtect Smart Wall (2014 or newer versions of XProtect Corporate) and XProtect Incident Manager (2022 R2 and newer versions of XProtect Corporate).
- 5) Can be used to Trade-in to newer versions of the same product.

LICENSING OF MILESTONE INTERCONNECT™

Milestone Interconnect allows a XProtect Corporate VMS system to access cameras residing in other video management systems. These systems can be other Milestone XProtect VMS systems (including Milestone Kite) or Arcules VSaaS cloud service. For a complete list of compatible products, please refer to Milestone website <https://www.milestonesys.com/solutions/hardware-and-add-ons/milestone-addons/interconnect/milestone-interconnect-compatibility/>.

One Milestone Interconnect Device License is required per camera in an interconnected remote site that is enabled in the central XProtect Corporate system. It is possible to interconnect a subset of the cameras in an interconnected system. Please note that an interconnected remote system without any enabled cameras will require one Milestone Interconnect Device License.

Interconnected remote systems are licensed independently via the normal licensing structure applicable for the particular product. Hence, interconnected remote systems do not require additional licenses when interconnected to a central XProtect Corporate system. This also includes products purchased before Milestone Interconnect was introduced.

XProtect Essential+

XProtect Essential+ is a simplified version of Milestone's market-leading video management software (VMS) at no cost. With support for eight cameras, XProtect Essential+ is the perfect match for the smaller business owner who wants video surveillance to protect employees and assets. With the ability to integrate with other systems and applications, users can explore the Milestone community and the power of the open platform. If you want access to your system from anywhere, XProtect Essential+ provides it all. Whether you are on the go, on the job or at home, your system is only a click away. Why start anywhere else?

For information regarding XProtect Essential 2016 R2 or older version, please refer to the section Limited Available Products.

Lifecycle stage: General availability

Current version: 2024 R1

XProtect Clients

XProtect Smart Client

For Milestone XProtect IP video management software, the XProtect Smart Client is a powerful, easy-to-use client application for the daily operations of security installations. A streamlined interface helps improve usability, making it easy to monitor installations of all sizes, manage security incidents and access and export live and recorded video.

Continually setting the standard for usability in IP VMS products, the XProtect Smart Client provides an extremely efficient working environment that can be optimized for different tasks and operator requirements. Advanced investigation tools combined with the easy-to-navigate video timeline enable fast and accurate examination of incidents. Export options, including digital signature, enable you to more efficiently and securely export video evidence.

Lifecycle stage: General availability

Current version: 2024 R1

LICENSES

XProtect Smart Client can be used free of charge with all Milestone XProtect video management products and Milestone Husky NVR units.

XProtect Web Client

Designed for XProtect video management software (VMS), Milestone Husky™ NVRs and Milestone Husky™ Video Surveillance Appliance Products, XProtect® Web Client is an intuitive web-based interface to view, play back and share video. It provides instant access to all essential functions and it is quick to learn and simple to operate for users of all skill levels. Available in 31 languages, XProtect Web Client provides remote access to the surveillance system from all common browsers and computer operating systems. XProtect Web Client runs on any Internet-enabled computer or device without installation, including optional browser plug-ins. It offers system scalability and an optimized user experience in systems with many users.

Lifecycle stage: General availability

Current version: 2024 R1

LICENSES

XProtect Web Client can be used free of charge with all Milestone XProtect video management products and Milestone Husky NVR units.

XProtect Mobile

XProtect Mobile is a free application for Apple® and Android™ devices that allows users to view video instantly using smartphones or tablets. It operates seamlessly with all XProtect® video management software (VMS), Milestone Husky™ NVRs, Milestone Husky™ Video Surveillance Appliance Products and the Milestone Arcus™ platform via Wi-Fi, 3G or 4G connections. With XProtect Mobile users can view, play back and export video, manage access control and push live video from the device's camera, allowing users to see what's important regardless of their location. XProtect Mobile is available in 31 different languages, allowing users to work with the application in their native language.

Lifecycle stage: General availability

Current version: 2024 R1

LICENSES

XProtect Mobile can be used free of charge with all Milestone XProtect video management products and Milestone Husky NVR units.

However, to use Video Push, a device license is required for each XProtect Mobile device from which users shall be able to push video. The price of the device license is determined by the specific Milestone product being used.

XProtect Extensions

Add-on products

XProtect Rapid REVIEW

XProtect Rapid REVIEW is an easy to use, powerful software solution that accelerates investigations – allowing security operators and investigators to find what they are looking for, fast. Designed to enable rapid review, search and analysis of video recordings, this means you no longer need to spend countless hours behind a screen watching endless footage to locate a specific incident. Once installed, XProtect Rapid REVIEW is seamlessly integrated into the XProtect Smart Client, XProtect Rapid REVIEW lets you review hours of video in minutes, and pinpoint people, objects and behaviors of interest immediately. You can then turn that information into evidence, insights and action.

XProtect Rapid REVIEW can be used with an unlimited number of device licenses. However, if the installation requires more than 200 XProtect Rapid REVIEW device licenses an approval is needed from Milestone to ensure the product fits the needs (1).

XProtect Rapid REVIEW is compatible with the following XProtect VMS products: XProtect Corporate, Expert, Professional+ and Express+. For a recommendation on minimum system requirements, please visit <https://www.milestonesys.com/support/tools-and-references/system-requirements/>.

Please note:

XProtect Rapid REVIEW is only compatible with versions of XProtect 2019R3 and above.

Lifecycle stage: General availability

Available for: Authorized, Advanced and Premier Milestone partners, with the recommendation to complete the related eLearning

NOTES

- 1) If the installation requires more than 200 XProtect Rapid REVIEW device licenses, please reach out to Milestone for approval.
- 2) Milestone recommends purchasing the same amount of XProtect Rapid REVIEW device licenses as Milestone XProtect device licenses on the underlying VMS product. However, to ensure complete camera coverage for comprehensive forensic video review you may need to purchase additional XProtect Rapid REVIEW device licenses to cover all enabled video channels in XProtect.
- 3) Customers are required to purchase the same Care service level and for the same term as on the underlying VMS.
- 4) Trade-in option can only be used to update to newer versions of the product.

XProtect Hospital Assist

Designed for hospital units caring for patients in need of 24/7 or situational observation, XProtect Hospital Assist is a dedicated remote patient monitoring solution that allows the hospital to increase staff efficiency, react to incidents rapidly and provide high-quality patient care.

As a solution, XProtect Hospital Assist 24A is composed of 4 different functionalities:

- XProtect Fall Detection
- XProtect Privacy Blur
- XProtect Sticky Notes
- XProtect Multiroom Audio

The prerequisite for deploying XProtect Hospital Assist 24A is an underlying core paid XProtect VMS product running version 2024 R1 or higher.

XProtect Hospital Assist is currently not available in Milestone Store. Please contact Milestone Sales Support for help on quoting and purchasing.

Lifecycle stage: General availability

Available for: Authorized, Advanced and Premier Milestone partners

Licensed Features

XProtect Smart Wall

XProtect Smart Wall is a video wall solution that provides visual coordination and decision support to operators working in response centers and control rooms. The tight integration with the XProtect® Smart Client makes XProtect Smart Wall an efficient collaborative canvas for gaining situational overview, assessing incidents and coordinating response activities. It supports any number or combination of monitors and runs on standard servers and displays, enabling flexible and cost-efficient installations.

Lifecycle stage: General availability

NOTES

- 1) XProtect Smart Wall is an optional add-on license for XProtect Corporate 3.0 to 2013 R2, and XProtect Expert 2014 and newer versions of XProtect Expert. XProtect Smart Wall is included in XProtect Corporate Base License (XPCOBL) as of version 2014. The XPSWBL is linked to a specific XProtect Corporate or XProtect Expert system's Base License and gives the right to run unlimited XProtect Smart Walls, displays and camera streams under that Base License.

XProtect Incident Manager

XProtect Incident Manager is a solution that enables organizations to document incidents and combine them with sequenced evidence (video and audio). Operations managers can manage incidents directly in their video management software and connect video footage with incidents as they unfold. XProtect Incident Manager allows to document all incident details in a single report that can be printed or converted to a PDF.

- 1) XProtect Incident Manager is an optional add-on license for XProtect VMS. XProtect Incident Manager is included in XProtect Corporate Base License (XPCOBL) as of version 2022 R2.

XProtect LPR

XProtect LPR is license plate recognition (LPR) software that detects license plate information from any vehicle around the world and links the license plate number with video. It is a simple way to control vehicle access, for example, for entrance/exit barriers, parking spaces and toll gates. XProtect LPR can send a notification when a certain license plate is detected, enabling users to quickly take action. Users can also define positive/negative lists that will initiate certain actions, such as opening a gate, which increases work productivity and can help automate tasks. XProtect LPR is a licensed feature that is seamlessly configured and managed through the supported XProtect video management software (VMS) products.

XProtect LPR is compatible with all XProtect VMS products, except XProtect Essential+.

Please note:

From 2019 R2, XProtect LPR for XProtect Express and Professional will exist in a separate installer and will not be updated to include new features and/or new country modules. There will be no further development on the detached XProtect LPR for XProtect Express and Professional.

Lifecycle stage: General availability

NOTES

- 1) XProtect LPR Base License (XPLPRBL) allows the XProtect LPR server software to be installed on unlimited number of servers per Software License Code. Includes five XProtect LPR Country Modules. Additional libraries required must be purchased in excess, using the XProtect LPR Country Modules (XPLPRLL) license.
- 2) License per camera running LPR analytics.
- 3) Additional country modules (beyond the 5 included modules) for XProtect LPR covering a specific region, state or country. The XPLPRLL license allows the LPR country module to be deployed on an unlimited number of XProtect LPR servers in a given installation. Please contact Milestone web (<https://www.milestonesys.com/solutions/hardware-and-add-ons/milestone-addons/lpr/>) for details on available LPR country modules.

XProtect Management Server Failover

XProtect Management Server Failover is designed to ensure that your VMS never skips a beat. It provides XProtect users with an always-hot high availability cluster with real-time replication and failover. It is a complete solution that protects the Management Server (and the Event, Log, and SQL servers when installed on the same physical server) from hardware, software, and human error server failures. Its efficient design and simple configuration, give you the ability to switch to a reliable backup Management Server seamlessly and automatically when the primary one fails. It provides synchronous real-time file replication, automatic application failover, and automatic fallback after a server failure, all in one solution.

Each Server License purchased includes a license for both the primary and secondary management server. We only support 1 pair of hosts per site. The host names for servers must be provided at the time of purchase (1).

In the case of distributed sites, with separate Management Servers, distinct Server Licenses can be purchased for each site.

XProtect Management Server Failover is compatible with the following XProtect VMS products: XProtect Corporate and Expert.

Lifecycle stage: General availability

XProtect Transact

XProtect Transact video enables different types of transaction-based processes. It has a broad market applicability in sectors such as retail, transportation and banking & finance to reduce and investigate shrinkage and fraud. Combining transaction data from point of sales systems, scanners, cash point machines, or similar systems with corresponding video, XProtect Transact enables real-time monitoring, exception handling and documentation of transactions.

XProtect Transact is an XProtect Extension, compatible with all XProtect VMS products, except XProtect Essential+.

XProtect Screen Recorder

The XProtect Screen Recorder is a function that enables Milestone XProtect IP video management software to inconspicuously capture screen recordings of any Windows-based PC or point-of-sale terminal. Captured screen recordings are managed in the same way as video (camera) data in the XProtect VMS. This feature helps manage loss and fraud by monitoring the use of business systems and documenting customer transactions. XProtect Screen Recorder improves efficiency by allowing you to audit staff activities and conduct training and education. The XProtect Screen Recorder works seamlessly with all Milestone XProtect VMS products.

Lifecycle stage: General availability

Current version: 2024 R1

Please note that 2024 R1 is the final version of this product.

LICENSES

Although the XProtect Screen Recorder is not subject to licensing as such, one (1) device license in the Milestone XProtect video management product is needed per monitored PC or POS equipment.

Frameworks

XProtect Access

Milestone XProtect Access is an XProtect Framework that video enables physical security through integration of access control and intrusion systems. XProtect Access provides operators unified access to all primary and most common functions in the integrated access control system as an integral part of XProtect Smart Client. The video enablement of access control systems empowers operators to effectively monitor access events, manually assist passages and conduct investigations on specific access points or cardholders, while enriching the value of reports and evidence material.

Extending the capabilities of the Milestone Integration Platform, the unique plug-in architecture makes integration of physical security systems easy, while reducing cost of installation at the customer site. With its decoupling of the video system and the access control system, XProtect Access provides customers with the freedom of selecting the system of their choice to match the specific needs and budget. XProtect Access is compatible with all XProtect VMS products, except XProtect Essential+.

Lifecycle stage: General availability

Available for: Authorized, Advanced and Premier Milestone partners

Current version: 2024 R1

- 2) Reader license for one single video enabled access point (door, gate, etc.).

Integrations

XProtect Retail

XProtect Retail is an investigation tool for performing advanced transaction data analysis. It helps retailers optimize store operations and increase profit by identifying fraud and reducing shrinkage. Based on transaction data from point-of-sale (POS) or automated teller machines (ATMs) typically gathered in Enterprise Resource Planning (ERP) systems, XProtect Retail links data with corresponding video from relevant cameras. Advanced search options, full video documentation and a set of pre-defined performance indicators make it easy to maintain a complete overview of store operations, cash registers/tills and employees so you can protect your entire business and customers. The XProtect Retail solution offers an Application Programming Interface (API) which enables the customer to populate the Milestone Database with transactional data.

XProtect Retail is compatible with all XProtect VMS products, except XProtect Essential+.

Standard Purchase of an XProtect Retail solution requires purchase of a mandatory XProtect Retail Integration Service (MSCXPR) that includes:

- Assistance in scoping and defining the retail solution
- Assistance during the development phase of the integration

Customized

Milestone also offers customized development of integration into the Retail solution on a fixed price basis. For customers requiring this, and for customers with more complex retail solutions, additional consultancy assistance can be purchased on a daily basis (MSCXPRD) to cover:

- Analysis of customer specific systems to be integrated with the retail solution
- Implementation of the retail solution (data and function integration)
- Optimization of the data base performance
- Test and document of the retail solution
- Assistance during the deployment of the solution (camera setup, mapping of tills in the system, etc.)

XProtect Retail must be ordered manually via the Milestone Sales Support department and is not available in Milestone Store. Purchase of a Retail solution is subject to closure of a separate development contract.

Please refer to page 3 for contact details.

Available for: Authorized (with current Milestone Certified Design Engineer and Milestone Certified Integration Technician certifications), Advanced and Premier Milestone partners

LICENSES		MSRP	
SKU ID	Name	USD	Note

MILESTONE CARE PLUS OPTIONS

There are no XProtect Retail specific Milestone Care Plus options available. However, it is mandatory to purchase Milestone Care Plus coverage for the underlying XProtect platform that is used together with the XProtect Retail solution.

TRADE-IN CREDIT

Trade-in of XProtect Retail licenses is not available.

NOTES

- 1) Gives the right to deploy and use the XProtect Retail solution on unlimited number of servers and sites for the given installation (legal entity).
- 2) One XProtect Retail Connection License (XPRCL) is required for each device, such as POS, till, scanner, etc., that is connected to the XProtect Retail solution.
- 3) Includes one week of XProtect Retail Integration Assistance for integration of customer specific databases and business systems. Additional integration work may be required dependent on the nature and complexity of the integration. Service is mandatory with any purchase of XProtect Retail. Travel time is charged at a reduced rate and travel costs are covered by the customer, using the Travel Expenses Voucher (MSTXP).
- 4) Daily rate for additional Retail specific integration services. Travel time is charged at a reduced rate and travel costs are covered by the customer, using the Travel Expenses Voucher (MSTXP).

Milestone Honeywell Galaxy Integration

Honeywell Galaxy is an alarm panel system.

This solution is a Milestone XProtect Event Server solution that supports groups, zones and outputs on the Honeywell Galaxy box and on any connected RIO modules. It provides the ability to listen to alarms on these and has the ability to enable and disable them. Honeywell Galaxy must be ordered manually via the Milestone Sales Support department and is not available in Milestone Store

Available for: Certified Honeywell integrators

Current version: -

LICENSES

SKU ID	Name	MSRP	
		USD	Note

There are no Milestone Care options available for the Milestone Honeywell Galaxy integration solution.

TRADE-IN CREDIT

Trade-in of the Milestone Honeywell Galaxy integration solution is not available.

NOTES

- 1) Base License for one Event Server.
- 2) License for additional panel on the same Event Server.

Milestone Husky IVO Video Surveillance Appliances

Power to Perform.

Introducing the new Milestone Husky™ IVO.

The new Milestone Husky™ IVO series offers a range of appliances to cover almost all solution needs. Whether it's for simple installation, maximum uptime, or critical data storage, there's a Husky for you.

This new scalable portfolio is designed to fit numerous XProtect use cases to give you the most from your installation. From the small corner store to the massive football stadium, Husky's range works seamlessly with XProtect to provide the performance and reliability needed to get the most out of your surveillance solution.

Key benefits:

- Optimized for XProtect so that you can achieve more with your video solution
- Easy to install, use and maintain – pre-loaded with XProtect
- Single point of support for both hardware and the VMS
- Prepared for evolving needs

The portfolio contains 6 products, each with multiple storage options available. All appliances in this series come with a standard, 5-years warranty.

For more information about the new Milestone Husky™ portfolio, along with the services available, check our webpage:

<https://www.milestonesys.com/products/hardware/husky-ivo/HuskyIVO-series/>

Use the Milestone Husky Calculator to select the optimal Husky solution with confidence

HUSKY AVAILABILITY

Please check for availability of Husky IVO in your country on our website:

<https://content.milestonesys.com/collections/view/D1B3983B-9265-4C47-B656E817B4D0FA9D/?mediaId=C689EDE4-D660-4452-B6328C30D95A149E>

MILESTONE CARE OPTIONS

There are no Care Plus or Care Premium options available for the Husky IVO Video Surveillance Appliance Products. Instead Care services can be purchased for the specific XProtect VMS used on the Husky IVO Video Surveillance Appliance Products.

TRADE-IN CREDIT

Trade-in of Milestone Husky products is not available.

SALES RETURN

Please note that, according to Milestone policy, there shall be **no sales returns** of Husky IVO products after placing the orders in Milestone Store. For more information, please check your commercial agreement with Milestone.

Milestone Husky IVO 150D

Reliable and simple setup

The Husky IVO 150 Desktop is the most simple, easy-to-use video surveillance appliance for XProtect®. Husky 150D is ideal for smaller sites with installations of only a few cameras and a smaller scale need to view real-time footage locally.

Milestone Cloud Solutions

Milestone Kite™

Offering all essential video surveillance and video analytics functions in one concise service package, Milestone Kite is designed for small to medium size businesses and organizations, which need a video surveillance solution that is reliable, easy to maintain, and updated automatically.

The simple installation process and maintenance-free operations make Milestone Kite the ideal solution for distributed-multisite organizations that want to centrally operate and manage their geographically dispersed sites as one unified system.

Milestone Kite is currently not available in Milestone Store. Please contact Milestone Sales Support.

Milestone Kite can be purchased for either a one year service term (12 months) or a three years service term (36 months). Payment for the service is made up-front.

All cloud and edge channel subscriptions require at least one Gateway.

Add-on services only work with at least one Gateway and one subscription, and only with cloud channels.

Customers can integrate their Kite installations with their existing XProtect Corporate (XPCOBT) system by using an Interconnect license (XPCOMIDL). Interconnect licenses are available for free to Kite customers.

For more details on Interconnect usage and capabilities, please see page 17 of the pricelist.

Available for: Authorized, Advanced and Premier Milestone partners

For more details on ordering procedures, regional availability, etc., please see the Milestone Kite™ Channel Partner Policy, published on My Milestone, as well as the Milestone Kite Country List.

- 8) Gateways require a one-time payment and do not follow the subscription rules of the Kite services. Gateway purchases include a 5-year warranty.

Milestone Services

As a complements to Milestone's video surveillance products, Milestone offers a portfolio of services designed to maximize the value of Milestone products for partners and customers. The service portfolio includes a wide range of customization and post-sales services:

- **Custom Development** – a customization and integration service enabling Milestone ecosystem partners to meet specific customer needs by fully exploring the use of Milestone's open platform technology
- **Milestone Professional Services** - a portfolio of system deployment and optimization services designed to unlock the full potential of Milestone installations while optimizing the system performance for a problem-free and stable operation

Custom Development

Milestone's XProtect open platform software allows for integration with the widest choice of third-party applications and business systems via the Milestone Integration Platform (MIP). The open architecture of XProtect provides endless possibilities to create custom, powerful video management solutions.

The Milestone Custom Development service offers assistance in developing, installing and supporting tailor-made integrated solutions. We also deliver services and software that enable our partners to offer complete solutions that match customer needs for IP-based video surveillance systems. Our experienced consultants have broad experience integrating 3rd-party applications and business systems into tailor-made XProtect software including:

- Access control
- Alarm systems
- Video analytics
- Point-of-sale (POS) systems
- Enterprise resource planning (ERP) databases

Each integrated solution is managed by a dedicated project leader and developed by one or more senior developers to ensure functionality and quality. Solutions are also tested in-house by the Milestone Test Department. All consultancy department staff members are senior engineers with a bachelor's or master's degree and many years' experience in the industry, ensuring a high-quality solution.

Not only can we provide you with expertise, the consultancy department also offers in-depth training of the MIP Software Development Kit (SDK), the comprehensive tool used to create applications for XProtect. The hands-on training is beneficial for experienced developers who want to create their own integration for XProtect software.

For more information about our consultancy services, contact us at Consultancy@milestonesys.com. Custom Development services cannot be ordered via Milestone Store.

Professional Services

Milestone Professional Services is a portfolio of system deployment and optimization services designed to unlock the full potential of Milestone installations while optimizing the system performance for a problem-free and stable operation.

Note: Milestone Professional Services are subject to availability, can be provided in-house or outsourced, and their price may vary accordingly.

Please refer to page 12 for ordering information and further details on Milestone Professional Services.

Quick Start-Up Services

The Quick-start Up service is a remote installation and configuration service for new Milestone installations. Drawing on Milestone's broad system experience, the service ensures that the implementation is in according to best practices and that the system is tuned to ensure optimal performance for the specific customer application.

Minimum service engagement: 4 hours

System Start-Up Services

The System Start-Up service is an onsite installation and configuration services for new Milestone installations. Drawing on Milestones broad system experience the service ensures that the implementation is executed according to best practices and that the system is tuning for optimal performance for the specific customer application. During the on-site service execution, the Milestone Engineer work together with the Milestone Partner and the end-customer, which not only ensures that everything is installed and configured properly, but also that competence about the installation is transferred.

Minimum service engagement: 1 day

Upgrade Assistance Services

The Upgrade Assistance service is designed to assist end-customers who want to upgrade their existing Milestone XProtect software to the newest version, and gain access to the latest functions and capabilities. The service is relevant to end-customers that subscribe to the Milestone Care Plus service (formerly Software Upgrade Plan – SUP).

Minimum service engagement: 1 day

System Health Check Services

The System Health Check service is an audit of installed software and hardware configurations. This service ensures that the configuration of the installation is aligned with Milestone's best practices and ensures optimal performance. Observed deficiencies and system optimization recommendations will be documented in a service report and delivered upon completion of the service.

Minimum service engagement: 1 day

Customized Services

With Customized Service, Milestone's skilled Engineers are available to provide tailored and customer-specific solutions. The expertise of Milestone Engineers is relevant in installation planning, acceptance testing, remote installation support and post-installation audits. All concluded service engagements are fully-documented.

Minimum service engagement: 1 day

System Design Services

The System Design Service is an onsite demo-to-win installation and configuration service. The implementation is executed with test licenses and replicates fully the network, CPU and storage load for the camera count and video feeds specified for the proof of concept.

Minimum service engagement: 1 day

Revisions

XProtect Portfolio of Products

As of June 30th, 2022, XProtect Enterprise and Essential have entered the Terminated stage of the product lifecycle and it will only be possible to trade-in these products into higher level active XProtect products.

As of June 30th, 2024, XProtect Professional and Express have entered the Terminated stage of the product lifecycle and it will only be possible to trade-in these products into higher level active XProtect products.

Please refer to the product lifecycle on page 6 for more details.

All XProtect Hospital Assist device licenses purchased before the 2024 R2 release of Milestone XProtect products will be covered by the Milestone Care service level and for the service term of the underlying XProtect VMS product without separate charge.

XProtect Multiroom Audio was included in 2024 R1 in the XProtect Hospital Assist bundle. The price did not change, but the compatibility restriction was changed from 2023 R1 to 2024 R1.

Customers using the old version of the bundle (without XProtect Multiroom Audio) can continue using it under the old compatibility requirements.

2024 R1 is the last release version for XProtect Screen Recorder. Starting 2024 R2, it will no longer be available for XProtect products.

Husky Portfolio of Products

As of 2024 R1 it is now possible to purchase Milestone Husky IVO 150 Desktop and 350 Tower Viewing Stations with GPU.

The Husky X8 has entered the Sustaining stage of the product lifecycle and is no longer be available for new sale through partners.

Rack rails are included and shipped with the rackable IVO units (350R, 700R, 1000R and 1800R), without additional costs.

The Husky M20, M30 and M50 has entered the Terminated stage of the product lifecycle and additional device licenses for these products can no longer be purchased.

The Husky M500A and M550A has entered the Terminated stage of the product lifecycle and additional device licenses for these products can no longer be purchased. It will still be possible to trade-in the attached software licenses M500A-XPETDL into XPET or XPCO software licenses.

Kite Portfolio of Products

Please note that starting with 2024 R1, Kite Access Control Axis (MKTACA) is no longer available for new purchases. Already existing Access Control subscriptions can be renewed.

As of 2024 R1, additional 90 days retention SKUs were added to the portfolio, for each resolution option.

Kite Camera to Cloud channels (MKTC2C) have been introduced in the portfolio in 2024 R1 and can now be purchased as a subscription.

Kite Cloud Analytics (MKTCCA) is no longer purchasable (for neither new sales nor renewals), as the functionality is now included by default in all cloud subscriptions tied to a cloud gateway.

Milestone Kite can now be purchased for either a one year service term (12 months) or a three years service term (36 months). Payment for the service is made up-front.

About Milestone Systems

Milestone Systems is a leading provider of data-driven video technology software in and beyond security that helps the world see how to ensure safety, protect assets, and increase business efficiency. Milestone enables an open platform community that drives collaboration and innovation in the development and use of network video technology, with reliable and scalable solutions that are proven in more than 500,000 customer sites worldwide. Founded in 1998, Milestone is a stand-alone company in the Canon Group. For more information visit: www.milestonesys.com
