ARTICLE V SERVICE FEE

- 5.1 Explanation. NCTCOG will make this Master Service Agreement available to other governmental entities, Participating Entities, and non-profit agencies in Texas and the rest of the United States through its TXShare cooperative purchasing program. The Contractor can market the Services under this Agreement to any Participating Entity with emphasis that competitive solicitation is not required when the Participating Entity purchases off of a cooperative purchasing program such as TXShare. However, each Participating Entity will make the decision that

it feels is in compliance with its own purchasing requirements. The Contractor realizes substantial efficiencies through their ability to offer pricing through the TXShare Cooperative and that will increase the sales opportunities as well as reduce the need to repeatedly respond to Participating Entities' Requests for Proposals. From these efficiencies, Contractor will pay an administrative fee to TXShare calculated as a percentage of sales processed through the TXShare Master Services Agreement. This administrative fee is not an added cost to TXShare participants. This administrative fee covers the costs of solicitation of the contract, marketing and facilitation, as well as offsets expenses incurred by TXShare.

5.2 Administrative Fee. NCTCOG will utilize an administrative fee, in the form of a percent of cost that will apply to all contracts between awarded contractors and NCTCOG or participants resulting from this solicitation. The administrative fee will be remitted by the Contractor to NCTCOG on a quarterly basis, along with required quarterly reporting. The remuneration fee for this program will be 2% on all fees for service, with the exception of expenses that are passed through to Participating Entities without markup from the Contractor, such as, but not limited to, advertising, travel expenses and per diem costs, temporary housing, and materials production.

5.3 Setup and Implementation. NCTCOG will provide instruction and guidance as needed to the Contractor to assist in maximizing mutual benefits from marketing these Services through the TXShare purchasing program.

ARTICLE VI RELATIONSHIP BETWEEN THE PARTIES

6.1 Contractual Relationship. It is understood and agreed that the relationship described in this Agreement between the Parties is contractual in nature and is not to be construed to create a partnership or joint venture or agency relationship between the parties. Neither party shall have the right to act on behalf of the other except as expressly set forth in this Agreement. Contractor will be solely responsible for and will pay all taxes related to the receipt of payments hereunder and shall give reasonable proof and supporting documents, if reasonably requested, to verify the payment of such taxes. APPENDIX A
Statement of Work

TAB D – B. Proposed Scope of Services

Grid Tree Pruning

Grid tree pruning is based on pruning in pre-designed districts, or grids on a set cycle and in its entirety. This includes pruning all trees (small, medium and large-sized.) Pruning will include structural pruning, crown raising, and slight crown cleaning in accordance with the standards set forth by the International Society of Arboriculture Pruning Standards (Best Management Practices) and shall have no more than 15% of the live foliage removed at a given time.

Special Request Tree Pruning

Special Request Tree Pruning includes tree maintenance services on designated tree(s) as ordered by the City's Arborist or designee. This category of pruning may include structural pruning, crown raising, crown cleaning and/or pruning to restore the crown. Whichever work type is ordered by the City, pruning will be performed in accordance with the standards set forth by the International Society of Arboriculture Pruning Standards and the Best Management Practice, Tree Pruning Guidelines. Trees that are identified for a Special Request Tree Prune shall have approximately 25% of the live foliage removed at a given time.

Pruning to reduce the tree's crown (or Crown Reduction Pruning) may be performed when conditions within the crown of a hardwood tree are such that the overall canopy mass and excessive wood weight needs to be reduced. This type of prune is performed when the City's primary objective is to maintain or improve tree health and structure and will be charged at the Crew Rental rate as agreed upon by the City and WCA.

Line Clearance

Trees that interfere or have the possibility of interfering with utility lines will be trimmed in a manner to achieve the required clearances as specified and in accordance with the California Public Utilities Commission. It is our goal to protect the current health and condition of the tree and to maintain its symmetry and direct growth away from the utility lines.

Young Tree Maintenance (Optional)

Proper pruning and care during the early stages of the tree's life will save money in the future, and create a safer, more beautiful, healthy, easy-to-maintain tree. We believe that tree care that is performed early will affect its shape, strength and life span. Our specialized small tree care team consists of certified personnel trained to perform the following under the hourly rate:

- Selective structural pruning
- Removal of dead, interfering, split and/or broken limbs
- Pre-conditioning the water retention basin built around the tree
- Staking or re-staking
- Adjusting tree ties
- Adjusting trunk protectors
- Weed abatement

Root Pruning

We strongly recommend against any root pruning, however, should the City elect to proceed, we recommend that it be done no closer than 3 times the diameter of the trunk. Roots will be pruned to a depth of approximately 12 inches by cleanly slicing through the roots, so as not to tear or vibrate the root causing damage to the tree. The excavated area will be backfilled with native soil and debris will be hauled away. This is performed under the hourly rate.

Tree and Stump Removal Operations

With a minimum of 48 hours advanced notice, WCA will inform Texas 811 of the location of work for the purpose of identifying any and all utility lines. The removal process consists of lowering limbs delicately onto the ground to prevent any hardscape damage. Immediately following the removal, the stump will be ground down, if ordered to do so and with proper USA notification. Our standard stump grinder is the *Vermeer SC802*. This stump grinder is ideal for any size job and can be used to grade large stumps. We also use the *Dosko SC69* stump grinders. These are intended to remove tree stumps and exposed root systems close to ground level. Tree removal and stump removal are to be charged separately in accordance with the contract.

Tree Planting

We can replace trees that have been removed and plant new trees in accordance with the City's specifications. We are prepared financially and logistically to acquire and purchase selected tree species for tree planting. At a minimum of 48 hours in advance we will inform Underground Service Alert (USA) of the location of work for the purpose of identifying any and all utility lines. A well-trained planting team will perform the soil preparation and installation of the tree.

Tree Watering

Tree watering will be performed by a full-time, WCA team member on various routes, when requested by the Agency. This team will also be responsible for reporting special care needs to the small tree care team. This could include reporting weeds, soil that has settled, and/or staking and tying needs.

Emergency Response

We are prepared for emergency calls 24 hours a day, 7 days a week, including holidays. The toll free number is 866-LIMB-DOWN (866-546-2369). This number will be provided to the Agency, Police Department and/or Fire Department. Our emergency response team will do what is necessary to render the hazardous tree or tree-related condition safe until the following workday.

Crew Rental

Due to our vast amount of resources, including our specialty equipment and qualified personnel we are able to extend our commitment to our customers by providing various miscellaneous services outside of the most common tree maintenance services:

- Misc. use of aerial towers and cranes (including equipment rental)
- Crown reduction
- Crown restoration

Arborist Reports

We have full-time Certified Arborists on staff that can prepare detailed arborist reports, tree evaluations and site inspections based on your specific needs. Reporting can be generated for one tree or an entire selection and is handled on a case-by-case basis.

WCA provides the technology, management, and civic experience that makes it the preferred tree management partner across the West.

Section 319 of Public Law 101-121 prohibits recipients of federal contracts, grants, and loans exceeding \$100,000 at any tier under a federal contract from using appropriated funds for lobbying the Executive or Legislative Branches of the federal government in connection with a specific contract, grant, or loan. Section 319 also requires each person who requests or receives a federal contract or grant in excess of \$100,000 to disclose lobbying.

No appropriated funds may be expended by the recipient of a federal contract, loan, or cooperative agreement to pay any person for influencing or attempting to influence an officer or employee of any federal executive department or agency as well as any independent regulatory commission or government corporation, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with any of the following covered federal actions: the awarding of any federal contract, the making of any federal grant, the making of any federal loan the entering into of any cooperative agreement and the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan, or cooperative agreement.

As a recipient of a federal grant exceeding \$100,000, NCTCOG requires its subcontractors of that grant to file a certification, set forth in Appendix B.1, that neither the agency nor its employees have made, or will make, any payment prohibited by the preceding paragraph.

Subcontractors are also required to file with NCTCOG a disclosure form, set forth in Appendix B.2, if the subcontractor or its employees have made or have agreed to make any payment using nonappropriated funds (to include profits from any federal action), which would be prohibited if paid for with appropriated funds.
