- 2.3 Any agreed-upon changes to a Purchase Order shall be set forth in a subsequent Purchase Order amendment. Contractor will not implement any changes, or any new Services until a Purchase Order has been duly executed by Participating Entity. For the avoidance of doubt, the Contractor acknowledges that Participating Entity is under no obligation to execute a Purchase Order. This Agreement will automatically be renewed, unless NCTCOG explicitly desires otherwise, for up to three additional years through **July 31, 2029**.
- 3.2 **Termination.** NCTCOG and/or Participating Entities may terminate this Agreement and/or any Purchase Order to which it is a signatory at any time, with or without cause, upon thirty (30) days' prior written notice to Contractor. Upon its receipt of notice of termination of this Agreement or Purchase Order, Contractor shall follow any instructions of NCTCOG respecting work stoppage. Contractor shall cooperate with NCTCOG and/or Participating Entities to provide for an orderly conclusion of the Services. Contractor shall use its best efforts to minimize the amount of any non-cancelable obligations and shall assign any contracts related thereto to NCTCOG or Participating Entity at its request. If NCTCOG or Participating Entity elects to continue any activities underlying a terminated Purchase Order after termination, Contractor shall cooperate with NCTCOG or Participating Entity to provide for an orderly transfer of Contractor's responsibilities with respect to such Purchase Order to NCTCOG or Participating

Entity. Upon the effective date of any such termination, the Contractor shall submit a final invoice for payment in accordance with Article IV, and NCTCOG or Participating Entity shall pay such amounts as are due to Contractor through the effective date of termination. ARTICLE V SERVICE FEE

- 5.1 **Explanation.** NCTCOG will make this Master Service Agreement available to other governmental entities, Participating Entities, and non-profit agencies in Texas and the rest of the United States through its TXShare cooperative purchasing program. The Contractor is able to market the Services under this Agreement to any Participating Entity with emphasis that competitive solicitation is not required when the Participating Entity purchases off of a cooperative purchasing program such as TXShare. However, each Participating Entity will make

the decision that it feels is in compliance with its own purchasing requirements. The Contractor realizes substantial efficiencies through their ability to offer pricing through the TXShare Cooperative and that will increase the sales opportunities as well as reduce the need to repeatedly respond to Participating Entities' Requests for Proposals. From these efficiencies, Contractor will pay an administrative fee to TXShare calculated as a percentage of sales processed through the TXShare Master Services Agreement. This administrative fee is not an added cost to TXShare participants. This administrative fee covers the costs of solicitation of the contract, marketing and facilitation, as well as offsets expenses incurred by TXShare.

- 5.2 **Administrative Fee.** NCTCOG will utilize an administrative fee, in the form of a percent of cost that will apply to all contracts between awarded contractors and NCTCOG or participants resulting from this solicitation. The administrative fee will be remitted by the Contractor to NCTCOG on a quarterly basis, along with required quarterly reporting. The remuneration fee for this program will be 2% on all fees for service, with the exception of expenses that are passed through to Participating Entities without markup from the Contractor, such as, but not limited to, advertising, travel expenses and per diem costs, temporary housing, and materials production.
- 5.3 **Setup and Implementation.** NCTCOG will provide instruction and guidance as needed to the Contractor to assist in maximizing mutual benefits from marketing these Services through the TXShare purchasing program.

ARTICLE VI RELATIONSHIP BETWEEN THE PARTIES

- 6.1 **Contractual Relationship.** It is understood and agreed that the relationship described in this Agreement between the Parties is contractual in nature and is not to be construed to create a partnership or joint venture or agency relationship between the parties. Neither party shall have the right to act on behalf of the other except as expressly set forth in this Agreement. Contractor will be solely responsible for and will pay all taxes related to the receipt of payments hereunder and shall give reasonable proof and supporting documents, if reasonably requested, to verify the payment of such taxes. No Contractor personnel shall obtain the status of or otherwise be considered an employee of NCTCOG or Participating Entity by virtue of their activities under this Agreement.

ARTICLE VII REPRESENTATION AND WARRANTIES

- 7.1 **Representations and Warranties.** Contractor represents and warrants that:
- 7.1.1 As of the Effective Date of this Agreement, it is not a party to any oral or written contract or understanding with any third party that is inconsistent with this Agreement and/or would affect the Contractor's performance under this Agreement; or that will in any way limit or conflict with its ability to fulfill the terms of this Agreement. The Contractor further represents that it will not enter into any such agreement during the Term of this Agreement;
- 7.1.2 NCTCOG is prohibited from making any award or permitting any award at any tier to any party which is debarred or suspended or otherwise excluded from, or ineligible for, participation in federal assistance programs under Executive Order 12549, Debarment and Suspension. Contractor and its subcontractors shall include a statement of compliance with Federal and State Debarment and suspension regulations in all Third-party contracts.
- 7.1.3 Contractor shall notify NCTCOG if Contractor or any of the Contractor's sub-contractors becomes debarred or suspended during the performance of this Agreement. Debarment or suspension of the Contractor or any of Contractor's sub-contractors may result in immediate termination of this Agreement.

- 7.1.4 Contractor and its employees and sub-contractors have all necessary qualifications, licenses, permits, and/or registrations to perform the Services in accordance with the terms and conditions of this Agreement, and at all times during the Term, all such qualifications, licenses, permits, and/or registrations shall be current and in good standing.
- 7.1.5 Contractor shall, and shall cause its representatives to, comply with all municipal, state, and federal laws, rules, and regulations applicable to the performance of the Contractor's obligations under this Agreement.

ARTICLE VIII CONFIDENTIAL INFORMATION AND OWNERSHIP

- 8.1 **Confidential Information.** Contractor acknowledges that any information it or its employees, agents, or subcontractors obtain regarding the operation of NCTCOG or Participating Entities, its products, services, policies, customer, personnel, and other aspect of its operation ("Confidential Information") is proprietary and confidential, and shall not be revealed, sold, exchanged, traded, or disclosed to any person, company, or other entity during the period of the Contractor's retention hereunder or at any time thereafter without the express written permission of NCTCOG or Participating Entity.

This obligation supersedes any conflicting provisions of this Agreement.

- 8.2 **Ownership.** No title or ownership rights to any applicable software are transferred to the NCTCOG by this agreement. The Contractor and its suppliers retain all right, title and interest, including all copyright and intellectual property rights, in and to, the software (as an independent work and as an underlying work serving as a basis for any improvements, modifications, derivative works, and applications NCTCOG may develop), and all copies thereof. All final documents, data, reports, information, or materials are and shall at all times be and remain, upon payment of Contractor's invoices therefore, the property of NCTCOG or Participating Entity and shall not be subject to any restriction or limitation on their future use by, or on behalf of, NCTCOG or Participating Entity, except otherwise provided herein. Subject to the foregoing exception, if at any time demand be made by NCTCOG or Participating Entity for any documentation related to this Agreement and/or applicable Purchase Orders for the NCTCOG and/or any Participating Entity, whether after termination of this Agreement or otherwise, the same shall be turned over to NCTCOG without delay, and in no event later than thirty (30) days after such demand is made. Contractor shall have the right to retain copies of documentation, and other items for its archives. If for any reason the foregoing Agreement regarding the ownership of documentation is determined to be unenforceable, either in whole or in part, the Contractor hereby assigns and agrees to assign to NCTCOG all rights, title, and interest that the Contractor may have or at any time acquire in said documentation and other materials, provided that the Contractor has been paid the aforesaid.

TAB D – TECHNICAL PROPOSAL

Tab D – A. Proposal Narrative

The ZapStand™ is a 'SMART' Automated External Defibrillator (AED) delivery system with breakthrough life-saving technology built into each ZapStand unit that is designed for use in high trafficked outdoor areas such as city centers, municipal sports parks, and college campuses.

- ZapStand, LLC is pleased to bring this industry disrupting medical technology to the United States. Over the next several years, we will deploy more than 2,100 ZapStand units across the USA.
- Each unit has U.S. patented technologies that make it the instant industry leader in this important market segment. We have spent \$4m on the development of ZapStand.
- Targeted for a 20-25 year lease with municipal outdoor park systems and University campuses, it is also relevant in town centers, pedestrian hotspots, and any other place that has increased foot traffic. Therefore, the cost to the customer is minimal.
- ZapStand provides the defibrillator ownership, management, tracking, training, 24-hour video monitoring, remote access control, emergency response handling, and support that is needed to make the most use possible of an AED. The unit requires nothing from the customer in terms of maintenance, tracking, or upkeep. We are an AED delivery system and the leading outdoor solution to solve the overwhelming problem in our country of the lack of working, accessible, and noticeable outdoor AEDs.
- With a 46-inch digital screen on the front, each unit can display maps, city or college information, important weather alerts, and sponsor information. The 55-inch digital screen on the back allows each unit to become a delivery vehicle for additional city or university information, product usage instructions, and outdoor media sponsorship messaging. Each customer is allotted 20% of the screen time to promote campus or city information.
- AEDs on the market currently are hidden away from the public, are not user friendly, and require too much staff time and maintenance. To solve that, each unit is fitted with a patented 24-hour monitoring technology that allows the unit to be monitored remotely, each day, without the need for someone to physically check on the product. The unit is constantly being monitored to ensure that the unit is where it is supposed to be, is working like it is designed to work, and that there are no problems with the unit or the AED. The unit is still cleaned and checked personally regularly, however.
- The unit is designed to be in the open, recognizable, and noteworthy. This positioning allows citizens and to be fully aware of the AED's availability.
- A GPS tracking device is located inside each unit that, when pulled from its holding space on the ZapStand, alerts the local 911 system of an emergency and immediately connects to the local emergency system. When the system then patches the unit's GPS connection directly into the emergency vehicle, the vehicle can pinpoint the exact location of the unit, and in turn, the exact location of the trauma victim. This connectivity provides extra minutes of care and can be the difference between life and death of the victim.
- Each ZapStand unit is temperature controlled with heating/air conditioning, as opposed to most units that are affected by extremely hot/cold environments.
- 3 cameras on each unit allow for increased 24-hour control of the unit and assures that the AED is physically where it is supposed to be.
- In stark contrast to current AED's deployed by municipalities or universities that sit on a wall indoors and are designed to go unnoticed, ZapStands are designed to be noticed as they are located in well-trafficked, prominent areas, and with the two digital screens, they cannot be ignored. This is intentional as it saves time in finding the AED in an emergency.

3. Timeline – Our contracts give us 365 days from contract signing to install and unit and go live but this usually happens in about 120 days.
4. Description and graphics are provided above
5. While we maintain 24/7/365 service of the unit, we also regularly check in on the unit to make sure everything is working correctly and is clean, etc.
6. Yes – we are all drug tested
7. The only way our quote will deviate from the norm is that we need to know how many units are being installed and the locations to determine correct pricing.
8. We will give yearly reports to the customer about how the products performed. The will also have the cell number of the CEO and be able to contact 24/7 if needed. In addition, they will be in contact with our service manager or any problems that may arise. We are very accessible.
9. A 50% deposit of the lease fee is required at contract signing and the remaining 50% is due when the units go live. We do accept credit cards. We then invoice at the first of each year for the yearly maintenance fee.
